**Death Warmed Over** Lisa Rogak, 2006-07 A unique cookbook that shows you how to incorporate long standing cultural traditions from the Amish Eskimo to Greek Polish into the planning of a well rounded celebration of life Contains a unique collection of 75 recipes typically served at funeral ceremonies alongside descriptions of rituals traditions from cultures around the world One part sociological study one part cookbook it explains the background proper timing for such culinary rituals as passing a hen a loaf of bread over a grave as dirt is shoveled onto the coffin serving chocolate caskets skull shaped cakes at a funeral baking up a Funeral Pie to acknowledge the passing of a loved one

**Dying to Eat** Candi K. Cann, 2018-01-05 Food has played a major role in funerary and memorial practices since the dawn of the human race In the ancient Roman world for example it was common practice to build channels from the tops of graves into the crypts themselves and mourners would regularly pour offerings of food and drink into these conduits to nourish the dead while they waited for the afterlife Funeral cookies wrapped with printed prayers and poems meant to comfort mourners became popular in Victorian England while in China Japan and Korea it is customary to offer food not only to the bereaved but to the deceased with ritual dishes prepared and served to the dead Dying to Eat is the first interdisciplinary book to examine the role of food in death bereavement and the afterlife The contributors explore the phenomenon across cultures and religions investigating topics including tombstone rituals in Buddhism Catholicism and Shamanism the role of death in the Moroccan approach to food and the role of funeral casseroles and church cookbooks in the Southern United States This innovative collection not only offers food for thought regarding the theories and methods behind these practices but also provides recipes that allow the reader to connect to the argument through material experience Illuminating how cooking and corpses both transform and construct social rituals Dying to Eat serves as a fascinating exploration of the foodways of death and bereavement

*Recipes for the Soul* Vicki Hamel, Raenel Schertz, 2020-09

Unpalatable Carrie Helms Tippen, 2025-01-15 The cookbook genre is highly conventional with an orientation toward celebration and success From glossy photographs to heartwarming stories and adjective rich ingredient lists the cookbook tradition primes readers for pleasure Yet the overarching narrative of the region is often one of pain loss

privation exploitation poverty and suffering of various kinds While some cookbook writers go to great lengths to avoid reminding readers of this painful past others invoke that pain as a marker of southern authenticity Still others use stories of southern suffering as an opportunity to make space for reconciliation reparation or apology for past wrongs In *Unpalatable Stories of Pain and Pleasure in Southern Cookbooks* author Carrie Helms Tippen attempts to understand the unique rhetorical situation of the southern cookbook as it negotiates a tension between the expectations of the genre and the prevailing metanarratives of the southern experience one focused on pleasure and the other rooted in pain Through an analysis of commercially published southern cookbooks from the 1990s to the present Tippen examines the range of rhetorical purposes and strategies writers have employed some of which undermine the reality of a painful past and cause harm or violence and others which serve as tools for truth and reconciliation
