 - b. "In addition to caring for you while you are sick, the nurses will help you plan to maintain your health."
 - c. "The nurse's job is to collect information and communicate any problems that occur to the physician."

Clinical judgment based on the nurse's clinical experience is part of EBP, but clinical decision making should also incorporate current research and research-based guidelines. Evaluation of patient outcomes is important, but data analysis is not required to use EBP. All published articles do not provide research evidence; interventions should be based on credible research, preferably randomized controlled studies with a large number of subjects.

DIF: Cognitive Level: Understand (Comprehension)
