## **Loosening The Grip 10th Edition Study Guide:**

**Interviewing for the Helping Professions** Fred McKenzie, Nicole Nicotera, 2018-04-17 A successful professional interview depends on the development of a generally positive human interaction Without a positive base the interview can be fraught with difficulties and roadblocks This is true regardless of the discipline be it social work psychology human services nursing criminal justice medicine psychiatry or any other field Beginning interviewers may have learned solid technique but often are initially focused more on thinking about what they will say next than on understanding or even listening to the client As a result that critical initial interview whose success affects the future of most professional encounters is often disrupted by a failure to truly listen and understand which is the foundation for earning clients trust This second edition goes beyond most other clinical interviewing books in its emphasis on the emotional foundation of interviewing and its focus on the importance of social justice and attention to the problem of microaggressions that can prohibit building and maintaining therapeutic rapport with clients Interviewing for the Helping Professions can help both the beginning professional and the veteran interviewer understand the nature and purpose technique meaning emotions and outcomes of the interviewing process The book also provides a comprehensive overview of the theory and technique so crucial to meaningful interviewing More important it emphasizes the emotional significance of the interaction and grounds the interviewing process in contemporary theories of practice and social justice [Interviewing for the Helping Professions](#) Fred R. McKenzie, 2013-09 Conducting a successful professional interview is more than an exercise of technical skills The specific approach an interviewer takes with any client should be informed by the interviewer's understanding of the client's needs and preferences exhibited within the developing relationship Interviewing for the Helping Professions promotes a theory driven relational approach to professional interviewing across disciplines The author's aim is to organically illustrate the theories and techniques of interviewing within the context of building and utilizing the therapeutic relationship The author uses example interviews to illustrate the variety of settings clients and issues interviewers encounter Each interview is fully annotated with the theory and practice skills being exhibited The emphasis on theory allows the reader to fully understand the underlying principles of interviewing encouraging them to be present and in the moment with their clients This comprehensive book is an indispensable resource for practice courses in counseling human services psychology and social work programs
