**What the River Carries** Lisa Knopp, 2012-05-18 In this informed and lyrical collection of interwoven essays Lisa Knopp explores the physical and cultural geography of the Mississippi Missouri and Platte rivers she has come to understand and cherish At the same time she contemplates how people experience landscape identifying three primary roles of environmental perception the insider the outsider and the outsider seeking to become an insider Viewing the waterways through these approaches she searches for knowledge and meaning Because Knopp was born and raised just a few blocks away she considers the Mississippi from the perspective of a native resident a dweller in the land She revisits places she has long known Nauvoo Illinois the site of two nineteenth century utopias one Mormon one Icarian Muscatine Iowa once the world's largest manufacturer of pearl mussel shell buttons and the mysterious prehistoric bird and bear shaped effigy mounds of northeastern Iowa On a downriver trip between the Twin Cities and St Louis she meditates on what can be found in Mississippi river water state lines dissolved oxygen smallmouth bass corpses family history wrecked steamboats mayfly nymphs toxic perfluorinated chemicals philosophies Knopp first encountered the Missouri as a tourist and became acquainted with it through literary and historical documents as well as stories told by longtime residents Her journey includes stops at Fort Bellefontaine where Lewis and Clark first slept on their sojourn to the Pacific Little Dixie Missouri a slaveholding hemp growing region as revealed through the life of Jesse James's mother Fort Randall Dam and Lake Francis Case the construction of which destroyed White Swan on the Yankton Sioux Reservation and places that produced unique musical responses to the river including Native American courting flutes indie rock Missouri River valley fiddling Prohibition era jazz jam sessions and German folk music Knopp's relationship with the Platte is marked by intentionality she settled nearby and chose to develop deep and lasting connections over twenty years residence On this adventure she ponders the half million sandhill cranes that pass through Nebraska each spring the ancient varieties of Pawnee corn growing at the Great Platte River Road Archway Monument a never broken tract of tallgrass prairie the sugar beet industry and the changes in the river brought about by the demands of irrigation In the final essay Knopp undertakes the science of river meanders consecutive loops of water moving in opposite directions which form around obstacles but also develop in the absence of them What initiates the turning that results in a meander remains a mystery Such is the subtle and interior process of knowing and loving a place What the River Carries asks readers to consider their own relationships with landscape and how one can most meaningfully and responsibly dwell on the earth's surface
