An Alternative History of Bicycles and Motorcycles Steven E. Alford, Suzanne Ferriss, 2016-04-06 An Alternative History of Bicycles and Motorcycles Two Wheeled Transportation and Material Culture accounts for the nineteenth century creation and development of two wheeled vehicles both human powered and motorized Specifically the book focuses on the period from 1885 which saw the appearance simultaneously of the Safety bicycle and the Einspur the first motorcycle to 1920 while exploring implications for later bicycling and motorcycling We argue that invention of these vehicles rather than the product of gifted individuals should be seen as the consequence of a number of historical economic cultural and political forces that intersect so unpredictably that the notion of a genius inventor is reductive The common evolutionary model of development from the bicycle to the motorcycle oversimplifies both the technology and its origins Stripping the vehicles of all their material and cultural associations such a model fails to advance our understanding of the devices their creators and their riders Taking a contemporary vehicle and tracing its lineage creates a false sense of evolutionary necessity in its creation and fails to account for the many possible developmental paths that were for whatever reason abandoned By contrast our book adopts a material culture approach a form of inquiry that stresses the connections between artifacts and social relations We consider not simply the bicycle and motorcycle as material objects but focus also on the complex socio political and economic convergences that produced the materials materials that in turn themselves shaped the vehicles appearance function and adoption by riders

Dreams of Flight Dana Polan, 2021-11-09 The first full length study of the iconic 1960s film *The Great Escape* and its place in Hollywood and American history Escaped POW Virgil Hiltz Steve McQueen on a stolen motorcycle jumps an imposing barbed wire fence caught on film the act and its aftermath have become an unforgettable symbol of triumph as well as defeat for 1960s America Combining production and reception history with close reading *Dreams of Flight* offers the first full length study of *The Great Escape* the classic film based on a true story of Allied prisoners who hatched an audacious plan to divert and thwart the Wehrmacht and escape into the nearby countryside Through breezy prose and pithy analysis Dana Polan centers *The Great Escape* within American cultural and intellectual history drawing a vivid picture of the country in the 1960s We see a nation grappling with its own military history a society undergoing significant shifts in its culture and identity and a film industry in transition from Old Hollywood's big budget runaway studio films to the slow interior cinema of New Hollywood *Dreams of Flight* combines this context with fan anecdotes and a close study of filmic style to bring readers into the film and trace its wide reaching influence Polan examines the production history including prior adaptations in radio and television of celebrated author Paul Brickhill's original nonfiction book about the escape and he compares the cinematic fiction to the real events of the escape in 1944 *Dreams of Flight* also traces the afterlife of *The Great Escape* in the many subsequent movies TV commercials and cartoons that reference it whether reverentially or with humor
