Manual of the Mercenary Soldier Paul Balor,1988 **The 21st Century Mercenary Operations Manual - Vol. 1**

Chris Ronson,2020-04-22 Being a profession as old as mankind itself the mere word mercenary often triggers images of danger toughness adventure deadly skills sex and money in a life as exotic and unreal as some classic action movie Often said to no longer exist rendered obsolete by the multi million dollar private military companies that reshaped private warfare since 2001 mercenaries in the classic way continued their existence and work without any real changes except for a rise in both overall demand and sorts of opportunities to work since the 80s and 90s when their existence was proved on photos in the famous publications like Soldier of Fortune Gung Ho and some of the best of the trade took the time and effort to even write manuals on how to get into that dangerous demanding and often outright crazy occupation Seasoned and experienced mercs like Paul Balor in his Manual of the Mercenary soldier or Frank J Camper running his Mercenary School and publishing several books including the original Mercenary Operations Manual in 1986 and Live to spend it opened that hidden world together with an opportunity to become a part of it to anybody dedicated enough to pay the price in sweat blood hunger and sleep deprivation Yet the changes of our world and its wars together with all the naysayers in the big www claiming the old school mercenary type to be long vanished made an update necessary Here it is No matter if you re eager to start a full time career as a hired gun want more information about this trade to decide if it s for you or you re only curious you ll get your answers Or maybe you simply want to acquire the skills and know how of a professional mercenary to improve your chances of protecting those you care about in a world of wars lacking frontlines wars that don t end on borders in lands far away but instead are fought by enemy forces that might carry out their next attack in a church a shopping mall or cinema in your hometown This books goal is to make sure that you are prepared for participating in any modern war as an independent single operator increasing to the maximum your chances to live to spend it **Mercenary Operations**
