Redesigning Petroleum Taxation Emre Üşenmez,2018-10-15 Since its inception some 40 years ago petroleum specific taxation in the UK has been subject to numerous modifications Often these modifications were brought into place not only to sufficiently incentivise the investors but also to capture a fair share for the government However it is evident from the frequency of changes that finding the right balance between these two aims is no easy matter Such a balance and the consequent fiscal stability is necessary for the long term relationship between the parties to endure to their mutual benefit Still it does not take much for one or other party to feel that they are out of balance As a consequence one party feels that the other party is taking an undue proportion of the value generated and that they are losing out Yet achieving that balance and fiscal stability is possible To understand this possibility this book first clarifies what is meant by sufficient incentivisation and fair share before developing a new fiscal system that manages this balance and stability Such clarification yields objective criteria against which to assess not only the existing regime but also the newly proposed regime This approach is further complemented by the critical analysis of the fiscal legislative framework and the evaluation of the legal positions of specific contractual elements and mechanisms found within that framework This latter analysis is important in order to reduce the legal uncertainty such elements may create which can otherwise lead to further reactive amendments and revisions to the fiscal regime in the future *European public sector accounting* Peter C. Lorson,Susana Jorge,Ellen Haustein,2019 Public sector accounting PSA and reporting was subject to considerable national reforms during the last decades and is in the focus of the European Commission aiming to harmonize the accounting systems of its Member States by developing European Public Sector Accounting Standards EPSAS Therefore the topic is of high relevance for both academia and practitioners This book provides different views about PSA in Europe as of today It spans topics such as history of PSA its differences to private sector accounting and finance statistics as well as budgeting A main part is devoted to International Public Sector Accounting Standards IPSAS by addressing their spread conceptual framework and selected public sector specific standards including a case study Also consolidated financial reporting is covered by drawing examples This textbook is not only of use for students and researchers but interested readers that seek for broad perspectives on PSA such as practitioners and members of intergovernmental organisations It intends to complement university teaching modules on PSA as those accessible for free under www.offene.uni-rostock.de online course european public sector accounting Global Encyclopedia of Public Administration, Public Policy, and Governance Ali Farazmand,2023-04-05 This global encyclopedic work serves as a comprehensive collection of global scholarship regarding the vast fields of public administration public policy governance and management Written and edited by leading international scholars and practitioners this exhaustive resource covers all
