Long And Happy Relationships:

A Happy Relationship Wolfgang Fries, 2021-05-08 A Happy Relationship I love you What does the person mean when he says I love you He sees the other and knows this feeling But is it a physical matter or a mental one Is it the person himself Does not the person with his thoughts play the greatest role and decide What are the basics for a happy relationship What are the rules of this game It is the individual who wants to enter into a connection with another individual Thus the basis of a relationship is the individual It is of no use just to carry the feeling of love for the other in oneself because there are things that promote the relationship with one another and things that are detrimental to a relationship Some speak of love and being in love such that when one is in love the feeling of love is the strongest but this feeling subsides over time But why is that so and what can be done about it Learn the basics of a happy partnership so that your relationship is blessed with happiness and longevity
