Barton Palmer, 2016-03-15 With sequels prequels remakes spin offs or copies of successful films or franchises dominating film and television production it sometimes seems as if Hollywood is incapable of making an original film or TV show These textual pluralities or multiplicities while loved by fans who flock to them in droves tend to be dismissed by critics and scholars as markers of the death of high culture Cycles Sequels Spin offs Remakes and Reboots takes the opposite view surveying a wide range of international media multiplicities for the first time to elucidate their importance for audiences industrial practices and popular culture The essays in this volume offer a broad picture of the ways in which cinema and television have used multiplicities to streamline the production process and to capitalize on and exploit viewer interest in previously successful and or sensational story properties An impressive lineup of established and emerging scholars talk seriously about forms of multiplicity that are rarely discussed as such including direct to DVD films made in Nigeria cross cultural Japanese horror remakes YouTube fan generated trailer mash ups and 1970s animal revenge films They show how considering the particular bonds that tie texts to one another allows us to understand more about the audiences for these texts and why they crave a version of the same story or character or subject over and over again These findings demonstrate that far from being lowbrow art multiplicities are actually doing important cultural work that is very worthy of serious study Horror Story in Haunted Motel Room T. Kim, 2020-09-09 Have you ever believed that ghost is real Personally I have never believed in ghost stories and that is just used to only Yes there must be yin there must be yang there are people there will also be ghosts Sometimes I do not want to believe in these vague mysteries but it happens that affect the human spirit in a negative way and without a valid explanation The story I am about to tell is true and I want to rewrite it as a diary about the days of living in hell the terrible fear in the haunted room I want everyone to read and feel all these unforgettable dramatic experiences that will certainly not be inferior to the horror movies you have ever seen Here I also want to confirm that the yin and yang is real somewhere in our lives they have not yet passed through the light door to God according to the Western way of thinking or still unjustly wandering around the other has not yet reincarnated according to the way of thinking in Eastern Buddhism But no matter what let us forcefully overcome the phobias of fear that threaten ourselves Learning how to live with tolerance and love all living beings surely a happy ending always comes in every human's life **The American Roadside in Émigré Literature, Film, and Photography** Elsa Court, 2020-01-06 The American Roadside in migr Literature Film and Photography 1955 1985 traces the origin of a postmodern iconography of mobile consumption equating roadside America with an authentic experience of the United States through the postwar road narrative a narrative which Elsa Court argues has been shaped by and through white male migr narratives of the American

road in both literature and visual culture While stressing that these narratives are limited in their understanding of the processes of exclusion and unequal flux in experiences of modern automobility the book works through four case studies in the American works of European born authors Vladimir Nabokov Robert Frank Alfred Hitchcock and Wim Wenders to unveil an early phenomenology of the postwar American highway one that anticipates the works of late twentieth century spatial theorists Jean Baudrillard Michel Foucault and Marc Aug and sketches a postmodern aesthetic of western mobility and consumption that has become synonymous with contemporary America

Television and Serial Adaptation Shannon Wells-Lassagne, 2017-01-20 As American television continues to garner considerable esteem rivalling the seventh art in its cinematic aesthetics and the complexity of its narratives one aspect of its development has been relatively unexamined While film has long acknowledged its tendency to adapt an ability that contributed to its status as narrative art capable of translating canonical texts onto the screen television adaptations have seemingly been relegated to the miniseries or classic serial From remakes and reboots to transmedia storytelling loose adaptations or adaptations which last but a single episode the recycling of pre existing narrative is a practice that is just as common in television as in film and this text seeks to rectify that oversight examining series from M A S H to Game of Thrones Pride and Prejudice to Castle
