literature from the classical period to the present are the subject of the critical essays comprising this volume. A fascinating resource for students and general readers and an essential research tool for scholars in literature, it is the first thematic reference on this scale to be published in English. The dictionary consists of 143 essays contributed by 98 specialists in world literature. Topics covered include themes relating to adventure, family life, the supernatural, eroticism, status, humor, idealism, terror, and many other categories of human experience. Each entry begins with a definition and a sketch on the origin and historical background of the literary theme. The topical essay discusses the significance and occurrence of the theme in world literature and supplies information on geographical area, genre, style, and chronology. Entries conclude with a selected bibliography of scholarship in the area. A cross index to themes and motifs will enable the reader to find information on secondary or related topics. Convenient to use and presented in a standardized format, this major new reference will be an important acquisition for libraries with collections in English, American, and world literature.
