James Brennan, Clare Moynihan

Kaplan Nursing Secure Predictor 24:

Handbook of Psychodynamic Approaches to Psychopathology Patrick Luyten, Linda C. Mayes, Peter Fonagy, Sidney J. Blatt, Mary Target, 2017-05-04 Authoritative and comprehensive this volume provides a contemporary psychodynamic perspective on frequently encountered psychological disorders in adults children and adolescents Leading international authorities review the growing evidence base for psychoanalytic theories and therapeutic models Chapters examine the etiology and psychological mechanisms of each disorder and thoroughly describe effective treatment strategies Highly accessible the book is richly illustrated with clinical case material It demonstrates ways in which psychodynamic theory and therapy are enhanced by integrating ideas and findings from neuroscience social and personality psychology cognitive behavioral therapy and other fields Winner Goethe Award for Psychoanalytic and Psychodynamic Scholarship

Evaluating Treatment Environments Rudolf H. Moos, 1997-01-01 This book presents the social ecological approach to the comparison and evaluation of treatment environments Social ecology is concerned with the environment and how people adapt to it The field deals with both the physical and the social environment It combines basic research approaches with a dedication to resolving common human problems The procedures developed in this classic volume have been used to monitor and improve treatment programs to assess the adequacy of program implementation and to understand the determinants and outcomes of specific aspects of treatment environments

Cancer in Context James Brennan, Clare Moynihan, 2004 This book offers healthcare professionals academics and anyone affected by cancer a fresh and original approach to the supportive care of people with cancer It looks at the underlying reasons why cancer so often leads to high levels of distress and more importantly it suggests many practical ways distress can be minimised and prevented The actual experiences of cancer patients as recorded in their personal diaries are combined with theory research and practical clinical advice In each of its seven chapters Cancer in Context takes a different perspective towards supportive care in cancer It begins by considering how people in general manage and adjust to massive changes in their lives and in particular how they react to the threat of cancer It goes on to examine the lived experience of people with cancer as they negotiate the many changes and challenges that follow their diagnosis Of course cancer doesn't only affect the person who has the disease it also impacts on families partners and carers One chapter explores these and other issues such as sexual difficulties the needs of older people single people and gay and lesbian couples Chapter 4 shows that the social and cultural context of a person's life is critical to understanding their resources the way they are treated and the responses they make to serious illness However it is in the clinical context that professionals have an opportunity to minimise disruption to their patients quality of life as they endure the notorious demands of oncology treatments The book offers practical clinical advice on psychosocial aspects of conventional cancer treatments common treatment difficulties cancer rehabilitation and palliative care Chapter 6 provides a summary of the burgeoning area of information and communication skills within healthcare and finally the book ends by
