Local Economic Growth Report:

Globalization, Planning and Local Economic Development Andrew Beer, Terry L. Clower, 2019-08-21 This textbook looks at economic development at the local community or regional scale. It provides students with a comprehensive introduction to contemporary thinking about locally based economic development, how growth can be planned, and how that development can be realized. *Globalization, Planning and Local Economic Development* Provides students with a thorough understanding of current debates around local and regional development and how that body of work can assist them in helping communities grow. Equips students with a toolkit of strategies that enable them to both plan for development and deliver that development through their professional lives. Offers a roadmap for economic development that helps students make sense of place based development by providing a meta narrative of how regions grow and how those processes can be enhanced. This integrating perspective will be organized around the concept of competitiveness and how that concept can be understood and operationalized in various ways. Introduces students to a range of techniques essential to success in economic development planning. In addition to a wealth of case studies and pedagogical features in the book, this text is also complemented by online resources. In offering a full toolkit of economic development knowledge, techniques, and strategies, this text will thoroughly prepare students for a career in urban planning, transport planning, human geography, applied economic analysis, geographic information systems, or work as an economic development practitioner. Roland V. Anglin, 2010-08-16 Growing local economies, empowering communities, revitalizing downtowns, developing entrepreneurship, building leadership, and enhancing nonprofits: you can achieve all these benefits and more with a comprehensive and strategic revitalization plan. Chronicling the struggle of local revitalization as organizers move from trial and error to effective revitalization strategies, *Promoting Sustainable Local and Community Economic Development* documents the current transformation in community revitalization from market based incentives to mixed strategies of public sector learning partnerships and community capacity. Knowledge about the field and what works is growing but not always publicized and readily accessible. This reference surveys the breadth of innovative place and people development practices, presenting lessons and examples at a general and textured level, putting information about innovative ways to change, influence, and improve the economic development process within easy reach. Roland Anglin brings his unique

vantage point to the topic his experience as a practitioner and applied academic allowed him to see how community economic development practices grow over time in size scale and impact He highlights the difference between what is now termed community economic development CED and traditional local economic development practice specifically the priority placed on community involvement in economic development partnerships between the private sector and government The book includes case studies that demonstrate what has and has not worked in revitalization efforts as well as how active public and private sector partnerships have been the most effective in revitalization efforts A Resource Guide is included at the end of the book for readers who may want a more expansive understanding of community economic development
