**Justice, Equality and Tax Law** Nevla Čičin-Šain, Mario Riedl, 2022-10-05 An in depth analysis of the specific aspects of justice equality and tax law Justice Equality and Tax Law is a topic that is both old and new at the same time Even if the society changes the demands that tax needs to be just and equal seem to be immutable What changes of course is the perception of the content of those demands International taxation post BEPS has been fraught with new challenges that warranted urgent responses These challenges were mainly provoked by the unprecedented rise of the digital economy which truly marked a change in the way business is conducted how value is created and how goods and services are produced and consumed Digitalization in turn had repercussions on all aspects of taxation direct taxation indirect taxation and even tax procedures For instance the quest for more justice and equality in profit taxes was the reason why in October 2021 a historical deal based on a two pillar solution to address the tax challenges arising from the digitalization of the economy was negotiated within the OECD G20 Inclusive Framework on Base Erosion and Profit Shifting and agreed upon by 137 member countries It was also the motive behind the shift from a typical vendor collection model to an intermediary collection model supported by centralized registration points in indirect taxes notably the VAT GST Abundant data from the European Union or the OECD signaled an ever increasing gap between expected VAT revenues and VAT actually collected making it obvious that the classical system of VAT GST collection was unable to respond to challenges posed by the digital economy Therefore new solutions based on the participation of digital platforms as intermediaries had been introduced Finally new technologies such as blockchain paved new avenues in enhancing tax compliance In this context this volume entitled Justice Equality and Tax Law contains not only a selection of the best master s theses of the full time LL M programme in 2021 2022 but also represents an in depth analysis of various aspects of this evergreen topic

**Electricity Access, Decarbonization, and Integration of Renewables** Sebastian Groh, Lukas Barner, Georg Heinemann, Christian von Hirschhausen, 2022-11-02 This Open Access Book covers different aspects of the low carbon energy transformation in a unique manner with a particular focus on two regions South Asia and Sub Saharan Africa The first part of the book provides useful insights on changes and reforms in the energy sector of Bangladesh while the second part illustrates the low carbon energy transformation in South Asia and the third part covers lessons from Sub Saharan Africa In all of these regions the energy sector is undergoing major changes driven by the four D s Decarbonization decentralization digitization and democratization Major overhauls are taking place at all levels The country level where energy mixes are rapidly changing the corporate level where large state owned and private companies are challenged and new actors are emerging and the local level where technical and regulatory change has made citizen engagement and community power an option to replace or at least complement centralized supply structures

**Fundamentals of EU VAT Law** Frank Nellen, Ad van Doesum, Simon Cornielje, Herman van Kesteren, 2020-08-19 Parties to cross border disputes arising anywhere in the vast Portuguese speaking world a community of more than 230

million in a space that offers a wide array of investment opportunities across four continents increasingly seek Portugal as their preferred seat of arbitration. A signatory to all relevant international conventions, Portugal has proven to be an arbitration friendly jurisdiction. This volume is the first and so far only book in English that provides a thorough in depth analysis of international arbitration law and practice in Portugal. Its contributing authors are among the most highly regarded legal names in the country including scholars, arbitrators and practitioners. The authors describe how international arbitration proceedings are conducted in Portugal, what cautions should be taken and what procedural strategies may be suitable in particular cases. They provide insightful answers to questions such as the following: What matters can be submitted to arbitration under Portuguese law? What are the validity requirements for an arbitration agreement? How do the State courts interact with arbitration proceedings and what is the attitude of such courts toward international arbitration? What are the rules governing evidentiary matters in arbitration? How is an arbitration tribunal constituted? How are arbitrators appointed? How may they be challenged? How can an international arbitral award be recognized and enforced? How does the Portuguese legal system address the issue of damages and what specific damages are admitted? How are the costs of arbitration proceedings estimated and allocated? The book includes analyses of arbitration related to specific fields of the law notably sports, administrative, tax, intellectual property rights especially regarding reference and generic medicines and corporate disputes. Each chapter provides for the topics it addresses an examination of the applicable laws, rules, arbitration practice and views taken by arbitral tribunals and state courts as well as those of the most highly considered scholars. As a detailed examination of the legal framework and of all procedural steps of an arbitration in Portugal from the drafting of an arbitration agreement to the enforcement of an award, this book constitutes an invaluable resource for parties involved in or considering an international arbitration in this country. The guidance that it seeks to provide in respect of any problem likely to arise in this context can be useful to arbitrators, judges, academics and interested lawyers.
