Music Outside the Lines Maud Hickey, 2012-11-29 Music Outside the Lines is an informative and practical resource for all who are invested in making music composition an integral part of curriculum. Author Maud Hickey addresses the practical needs of music educators by offering both a well-grounded justification for teaching music composition and also a compendium of useful instructional ideas and classroom activities. Hickey begins with a rationale for teachers to begin composition activities in their own classrooms with a thoughtful argument that demonstrates that all music teachers possess the skills and training needed to take children along the path toward composing satisfying musical compositions even if they themselves have never taken formal composition lessons. She also addresses some of the stickier issues that plague teaching music composition in schools such as assessment notation and technology. Most importantly, she introduces a curricular model for teaching composition, a model which provides an array of composition activities to try in the music classrooms and studios. These activities encourage musical and creative growth through music composition while they are organized in logical units corresponding to existing teaching modules; they also offer jumping off points for music teachers to exercise their own creative thinking and create music composition activities that are customized to their classes and needs. As a whole, Music Outside the Lines both successfully reasons that music composition should be at the core of school music curriculum and also provides inservice and pre-service educators with an essential resource and compendium of practical tips and plans for fulfilling this goal.

Crime and Spy Jazz on Screen Since 1971 Derrick Bang, 2020-04-16 Henry Mancini's Peter Gunn theme, Lalo Schiffrin's Mission Impossible theme, Isaac Hayes theme from Shaft. These iconic melodies have remained a part of the pop culture landscape since their debuts back when movie studios and TV production companies employed full orchestral ensembles to provide a jazz backdrop for the suspenseful adventures of secret agents, private detectives, cops, spies, and heist-minded criminals. Hundreds of additional films and television shows made from the mid 1950s and beyond have been propelled by similarly swinging title themes and underscoring many of which have undeservedly faded into obscurity. This meticulously researched book begins with Hayes' game-changing music for Shaft and honors the careers of traditional jazz composers who, as the 1970s gave way to the 80s and beyond, resolutely battled against the pernicious influx of synth jukebox scores and a growing corporate disinterest in lavish ensembles. Fans frustrated by the lack of attention paid to jazz soundtrack composers including Mort Stevens, Laurie Johnson, Mike Post, Earle Hagen, David Shire, Elmer Bernstein, and many many others will find solace in these pages along with all the information needed to enhance one's music library. But this is only half the story; the saga's origins are discussed in this book's companion volume, **Crime and Action Jazz on Screen 1950-1970**.
