American Automobiles of the Brass Era Robert D. Dluhy, 2013-09-27 From Abbott Detroit to Zip this unique reference book documents American gasoline powered automobiles manufactured for the model years 1906 through 1915 the Brass Era In these explosive early years of automotive history a vast number of manufacturers most of which failed within two years produced a range of cars whose sheer diversity is unmatched in later times The short corporate lifespans and constant change throughout the industry left a fragmented historical record with data about specific models scarce and scattered in later sources Here the basic facts of 4 000 cars painstakingly researched in all available period sources are collected and trends of the era are analyzed
