Writing Your Way Through College Sheryl I. Fontaine, Cherryl Smith, 2008. Writing academic essays in college often seems mysterious to students who do not yet understand the process of developing an idea into a finished piece of reasoned prose. *Writing Your Way Through College* demystifies that process and enables teachers to help students invent the university as they reinvent themselves as proficient writers and rhetorical problem solvers. *Writing Your Way Through College* offers instructors a set of careful lessons that draw on current disciplinary knowledge in composition and rhetoric. Sheryl Fontaine and Cherryl Smith provide a classroom-centered text that guides students through progressively more complex evidence-based writing. *Writing Your Way Through College* offers students and teachers practical lessons on writing and learning a set of assignments that build incrementally a support system for new instructors. Accessible information about college writing, a flexible approach to the classroom. In a concise, readable format, *Writing Your Way Through College* offers insights into how individuals negotiate language communities so that students can better master the conventions and rhetorical characteristics of academic writing. A creative and effective template for the teaching of writing. *Writing Your Way Through College* belongs on every shelf and in every classroom.

Conversations in Context Kathryn Fitzgerald, Kathy Fitzgerald, Heather Bruce, Anna Vogt, Sharon Stasney, 1997-10. *Conversations in Context* Identity, Knowledge and College Writing invites students to learn about and participate in a series of related conversations about student identities, the aims of the university, and the conventions of academic writing. Rather than seeing academic writing as consisting of objective statements of truth, the editors of this textbook view it as a social construction of knowledge that requires rhetorical choices as well as empirical research. This book represents academic writing as a sequence of continuing conversations within discourse communities, providing a variety of opportunities to engage with and participate in these conversations.
