Technical Communication Fully centralizes the computer in the technical workplace presenting how writers use computers
throughout their communication process The networked computer from smartphone to mainframe has become the central
hub of written spoken and visual communication in today s scientific and technical workplace Firmly rooted in core rhetorical
principles Technical Communication Strategies for Today presents computers as thinking tools that powerfully influence how
we develop produce design and deliver technical documents and presentations This popular text helps communicators draft
and design documents prepare material for print and web publication and make oral presentations Speaking to today s
readers the narrative is chunked so that readable portions of text are combined with graphics and can be raided by readers
seeking the information they need Retaining these features the 3rd Edition of Technical Communication Strategies for Today
also marks an important shift to drawing readers attention to the centralization of innovation and entrepreneurship in the
technical workplace Revised chapters new case studies and new exercises and projects demonstrate that those who know
how to write clearly speak persuasively and design functional and attractive texts will be the most likely to succeed in today s
innovation based and entrepreneurial workplace Technical Communication Strategies for Today 3rd Edition is also available
