Jonathan Kozol Amazing Grace Chapter Summaries:

A Theology as Big as the City Raymond J. Bakke, 2025-07-29 As we look at the world class cities around our planet we face five new urban realities a crack cocaine epidemic assault weapons massive numbers of homeless children HIV AIDS and in the U S what Time magazine has called the browning of America The needs of the urban population are greater than ever As our cities swell with immigrants I m reminded that Jesus was born in a borrowed barn in Asia and became an African refugee in Egypt so the Christmas story is about an international migrant Furthermore a whole village full of baby boys died for Jesus before he had the opportunity to die for them on the cross Surely this Jesus understands the pain of children who die for the sins of adults in our cities How does God see the city What does Scripture have to say about urban ministry These are the questions Ray Bakke has systematically addressed beginning with Genesis and continuing through to Revelation Here is a biblical theology that will constantly surprise and challenge as you get a glimpse of how big God s view of the city really is

Sharing Care Robert Ziegler, Andrew Bush, 2013-05-13 A clinician faces a multitude of considerations when assessing a child patient Foremost among these is that caring for the child entails caring for the family members involved with that child The therapist must balance the competing needs and feelings of the child parents and family as a whole By forming an alliance with all members of the family the therapist is in a position to strengthen and enhance the ties between child parents and family during all phases of assessment and treatment leading to a

more effective therapeutic intervention *Paving the Way for Children's Success* offers a model that will help clinicians achieve this alliance The model presented in this book focuses on ways to integrate child assessment and treatment with that of their parents and families level of function It uses the authors unique concept of the Zones of Care to help clinicians assess this level of function In turn each of the four zones leads to a specific approach to treatment The authors present how these treatment approaches to current internalizing and externalizing disorders in children and adolescents allow clinicians to integrate a wide variety of techniques to address most DSM IV categories Their approach stresses both symptom reduction and the cultivation of coping skills It also integrates fiscal issues of treatment into the development of the alliance with the parents in resolving the presenting problem Dr Ziegler and Dr Bush present the reader with practical workable strategies for laying down strong diagnostic foundations for successful treatment making *Paving the Way for Children's Success* a valuable resource for any clinician working with children and adolescents *Delivering Human Services* Alexis A. Redeeming the Time Stephen B. Scharper, 1997 What is the proper role of humans in light of the ecological crisis After a sympathetic and critical analysis of the principal answers to that question Stephen Scharper argues that only a religious point of view seeing human agency as central to both the devastation and the reclamation of planetary life is viable Such a view must include social economic cultural as well as theological transformation in order to be effective in confronting threats to the ecosystem Among the principal answers or paradigms assessed by this book are the new cosmology ecofeminism process thought Gaia theory and liberation theology Each of these recognizes the role of the human in the present environmental crisis But each of these also approaches the human problematic in incomplete or inadequate ways Thus *Redeeming the Time* is both an examination of the state of the question and a constructive effort at building among the various current paradigms and remedying or redeeming their inadequacies
