Massey Ferguson 35 65 Models In Detail:

Massey-Ferguson 35 & 65 Models In Detail Michael Thorne, 2015-03-01 Launched in 1958 as the successor to the ubiquitous Ferguson TE20 the Massey Ferguson 35 was a product of the merger of Massey Harris and Ferguson. It incorporated numerous improvements and new features and became massively popular worldwide. Its companion the 65 model was introduced shortly afterwards and was a larger tractor offered with the revolutionary Multi Power system that gave 12 forward and four reverse gears. Durable and versatile, these tractors are still a practical proposition today and even unrestored examples command high prices. Michael Thorne, author of *Ferguson TE20 in Detail*, continues the story as he describes the development of these models, the production versions and their capabilities, options and extras, conversions, implements and their use today. Outstanding surviving examples are featured in some 80 photographs specially taken for this book and there are approximately 120 accompanying archive illustrations.

The Big Book of Massey Tractors Robert N. Pripps, 2006 This is the first full scale history of one of the largest farm tractor manufacturers of all time, peppered with pictures of Massey Harris, Ferguson and Massey Ferguson's historic models, collectibles, sales memorabilia and advertisements from old farm magazines. *The Big Book of Massey Tractors* tells the story of the mergers and machines that formed Massey Ferguson over several decades and, because these machines dominated Canadian farms for almost a century in many ways, it also tells the story of Canadian agriculture. Robert Pripps, a longtime tractor aficionado, describes Massey Ferguson's battle with Ford over dominance of the farm tractor industry, a battle the company eventually won remarkably enough in view of its initial abject market failure with tractors. From the company's beginnings in 1891 to its 1953 merger with the Ferguson tractor company to its current ownership by Allis Gleaner Company/AGCO, Masseys have played a large role in our agricultural history. *The Big Book of Massey Tractors* celebrates that role and showcases the machines that have helped turn the earth for over a hundred years.

Massey Ferguson 100 Series In Detail Michael Thorne, 2018-02-06 Following his well received books in this In Detail series on the Ferguson TE20 and the Massey Ferguson 35/65 models, author Michael Thorne turns his attention to the outstandingly successful and well loved 100 Series of tractors. Of the 100 range, the most popular was and remains the 135. Half a million 135s were built at Massey Ferguson's factory in Coventry alone, with production overseas on top of this figure. Another big success was the larger, more powerful 165, with nearly 200,000 sold. This model, like the 135, is among the most popular and sought after classic tractors today, although many 135s and 165s are still in active use around the world in spite of their age. The 100 range included a great number of other models and, in addition to the 135 and 165 which are given in depth treatment here, important models described in detail are the 130, 148, Super Spec 168, 175, 185 and 188 Super Spec. There is an extensive chapter on the implements available for the range and another on conversions. Featuring 290 illustrations, including detailed, specially commissioned colour photography of outstanding examples of 100 Series tractors, *Massey Ferguson 100 Series In*
