The Organisation of Crime and Harm in the Construction Industry Jon Davies, Hanna Malik, 2024-04-30 Drawing on empirical work and secondary analysis from the UK and Finnish construction industries this book contributes a deep rooted analysis of construction industry harms that originate from corporate industrial state processes The UK context arguably represents a classic neoliberal system categorised by privatisation of services and minimal regulation whereas Finland broadly provides a social democratic alternative with its relatively strong national regulation and public sector oversight of industry These concepts interlink strongly with the notion of state corporate crime since this perspective shifts attention away from individualistic explanations for crime and harm towards symbiosis between states and corporations This book argues that existing explanations based on organised crime and individual rogues are insufficient to account for the wider range and subtlety of harms that occur in construction and therefore offers a unique perspective into organisational industry and state dynamics in this sector An accessible and compelling read this book will appeal to students and scholars of criminology sociology organized crime and those interested in harms in the construction industry
