Juki User Manual:

Juki Model 6100 User's Manual ,1983 **How to Use Advanced Sewing Automations** Dr. Prabir Jana,2020-06-18

Both quality and productivity improvement are the driving forces for accelerating the growth of factories. Factories specialise in manufacturing of specialised products such as polo shirts, bottoms and shirts require specialised machineries with maximum level of mechanisation/automation. Whereas companies involved in manufacturing of multi-product categories which include fashion apparels have to deal with small order quantities with frequent style changeover. Hence flexibility and set up time minimisation are important criteria for equipment selection. In this series Dr. Prabir Jana with the help of StitchWorld technical team identifies seven critical operations for analysis. **PC Mag** ,1986-11-11 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services.
