Bolich, Ph. D. G. G. Bolich, 2008 Transgender Realities is a brief introduction to gender variant people and to the judgments made about them The volume begins with a consideration of what gender is and does and how this relates to all of us Turning to specific consideration of transgender people the book offers what research reveals about them but also what they report about themselves The causes of transgender how society responds to it and how partners family and friends relate to a transgender person are only a few of the matters discussed Also included is a survey of transgender across history and around the world how transgender interacts with religion and the changing way mental health professionals are working with transgender people This volume is a must have introduction **Children with Differences in Sex Development** Simmi K. Ratan, 2024-11-07 This manual covers all possible aspects of managing a child with differences in sex development an entity easily missed by the unsuspecting clinician Managing such children is challenging due to various processes genetic hormonal environmental chromosomal and environmental involved in developing gonads and brain imprinting The entity of Gender dysphoria adds further to this complexity With a global uproar caused by the cropping up of medicolegal issues concerning sex allotment and sex of rearing a need is felt to know about the line of approach to address the problems of management of these children which does not stop at medical and surgical treatment Whereas many social and legal organizations are relentlessly working for the cause of such children there is a lack of comprehensive literature on the round management of such children which makes the book more of an essential addition to the existing reading material Esteemed writers give all these aspects and explain lucidly with the help of tables figures and diagrams Deleuze, Guattari and India Ian Buchanan, George Varghese K, Manoj N. Y., 2021-09-30 This book presents a pragmatic engagement between the philosophy of Deleuze and Guattari and various facets of Indian society culture and art The universal appeal of the philosophy of Deleuze and Guattari finds its due place in India with a set of innovative analyses and radical interpretations that reimagine India as a complex multiplicity The volume brings together scholars from various disciplines and theoretical orientations to explore a wide range of issues in contemporary India like dalit and caste studies nationalism gender question art and cinema and so on under the rubric of Deleuzo Guattarian philosophy This interdisciplinary book will be useful to scholars and researchers of philosophy anthropology cultural studies sociology postcolonial studies and South Asian studies Today's Transgender Realities:

Bolich, 2008-01-11 The second in a landmark five volume set by gender scholar G G Bolich this volume looks at the lives of people called transgender These people are allowed to speak for themselves in the various studies conducted with them by many scholars over the last few decades What the research reveals provides a fascinating and compelling look at a group of people increasingly visible in our society **Crossdressing in**

Context, Vol. 2: Today's Transgender Realities Gregory G. Bolich, Ph. D. G. G. Bolich, 2007-06-19 The second volume in a 5 volume set The Context of Transgender Realities examines crossdressing as it is experienced by crossdressers and as it is interpreted by others including researchers from a number of different disciplines Organized as answers to frequently asked questions the text covers everything from what motivates crossdressing to when it begins how it proceeds and what it means

The Transsexual's Survival Guide to Transition & Beyond JoAnn Altman Stringer, JoAnn Roberts, 2000 Real Estate Record and Builders' Guide , 1924 **Human Rights of the Transgender Community in India** Somabha

Bandopadhyay, 2025-07-01 This book records real life experiences of transgender violence and victimisation analysing the legal lacunae in granting protection to the historically vulnerable community and their perspective of the law and safety It is an outcome of extensive empirical legal research conducted in the state of West Bengal India With exploration of global scenario of violence a systematic pattern of victimisation has been identified leading to a reasonable conclusion of internationalisation of transgender violence and victimisation that is largely ignored and is bereft of any legal protection Premised on the fact that without safety and protection against grave crimes no amount of civil rights protection is effective the book provides an account of the ever increasing gravity of transgender violence and victimisation Recognising that there is a paucity of research on type of targeted violence against transgender persons yet even with that scarcity of consistent and reliable reporting to official law enforcement sources the data that is available from governments public interest groups and community surveys about SOGI motivated violence reveals that precarity prevalence violence and the harm caused are graver as against other types of crimes and crimes against LGB population the author deliberately chose to focus on unearthing violence and victimisation The culturally sensitive approach to the problem is first of its kind in the legal landscape and expects to contribute to the developing jurisprudence The book navigates through the transgender jurisprudence to conclude that attempts made by the law makers across the world is only tokenistic and that the real pulse of the community is far from being recognised in law The in depth interviews with law enforcement bodies and transgender activists and victims reveal gaps between laws and realities whose impact assessment has been attempted in the book to suggest possible best practices to reduce vulnerability and auger empowerment The book expects to open doors for more legal and interdisciplinary research in India and abroad by scholars of law sociology victimology and others
