Irish Leaving Cert Sample Papers:

‘O Captain, My Captain’: One Teacher’s Hope for Change in the Irish Education System Jennifer

Horgan, 2023-02-06 O Captain My Captain is a book about one teacher's hope for change in the Irish education system. It is written in an engaging style that draws on personal experience as well as research. It aims to reach anyone interested in education from teachers and academics to parents and young people. The book imagines what our education system might look like without the Leaving Cert and the CAO system. It considers the type of learning that might happen in our classrooms without the demands of a single set of high stakes exams. It suggests that our students and our broader society might be more fulfilled and safer as a result. In the opening chapters the author considers attitudes towards teachers in Ireland. The author suggests a breakdown in this respect linked to the classrooms of the past and a growing pressure on students to perform well in a market run system. Our competitive drive in education is presented as yet another form of oppression in our country following on from the abuses of the Church and colonialism. The book makes the claim that removing the stress and the singularity of the Leaving Cert could liberate Irish students. There is a deep concern for social justice throughout. In the later chapters the author places much focus on the importance of objective sex education in Irish schools referring to rising rates of harassment and violence in our universities. The writer believes that a removal of a rigid academic approach to education would allow more time to discuss the physical and social realities of young people's lives and bodies. The book closes where it began in considering the role of the teacher what the parameters of that role should be in a classroom devoted to helping children find their own individual paths and encouraging them to tell their own stories. **Parliamentary**

It is the major contributor to poverty exclusion and social decay. This book contributes to the growing debate on the unemployment problem in Ireland. It is the first academic collection of papers on this issue and contains contributions from some of Ireland's most respected economists. It offers alternative views of the Irish labour market with these views shedding light on many aspects of the unemployment problem including exchange rates influences aggregate demand analysis labour market policies and the historical perspective. Since this book assesses the problem of unemployment from different perspectives it should widen the discussion of this most serious issue. **Language from Below** Caoimhghin Ó Croidheáin, 2006 This book critically

investigates the relationship between the Irish language and politics through a survey of individuals and movements associated with the language. This approach takes into account competing socialist and nationalist perspectives on language and society to demonstrate the different motivations for and class interest in Irish. The increasing power of the global market has the negative effect of reducing the well being and autonomy of national populations. The study examines the decline of

the Irish language as part of a global neo liberal system that homogenises markets by reducing national and linguistic boundaries It is argued that the struggle for rights is transformational and that the struggle for language rights by individuals and communities is an essential part of this transformation **Parliamentary Debates (Hansard)**.
