Iron Mountain Report Hoax:

Beyond Iron Mountain Arturo Raymond, 2017-03-05 In 1961 President John F Kennedy became interested in what would happen in a world of peace instead of a world constantly at war He then ordered a Top Secret study known as Publication 7277 to see what the possible outcome might be Although JFK had good intentions considering the threat of mutual widespread nuclear annihilation at the height of the Cold War his plan for peace metastasized into a blueprint to bring America into a New World Order The book Report from Iron Mountain is a favorite among conspiracy theorists rejecting statements by the author Leonard Lewin that the book was really an elaborate hoax This infamous hoax claims that governments intentionally wage wars to prevent political and economic collapse One need only look at what has happened in our country and the world since that report to understand it was NOT a hoax and that Report from Iron Mountain was almost a carbon copy of the very real Publication 7277 a carefully crafted design for the destruction of America

Report from Iron Mountain Leonard Lewin, 2018-07-25 Report from Iron Mountain unveils a hitherto top secret report of a government commission that was requested to explore the consequences of lasting peace on American society The shocking results of the study as revealed in this report led the government to conceal the existence of the commission they had found that among other things peace may never be possible that even if it were it would probably be undesirable that defending the national interest is not the real purpose of war that war is necessary that war deaths should be planned and budgeted REPORT FROM IRON MOUNTAIN tells the story of how the project was formed how it operated What happened to it It includes the complete verbatim text of the commission's hitherto classified report

Conspiracy Theories in American History Peter Knight, 2003-12-11 The first comprehensive history of conspiracies and conspiracy theories in the United States Conspiracy Theories in American History An Encyclopedia is the first comprehensive research based scholarly study of the pervasiveness of our deeply ingrained culture of conspiracy From the Puritan witch trials to the Masons from the Red Scare to Watergate Whitewater and the War on Terror this encyclopedia covers conspiracy theories across the breadth of U S history examining the individuals organizations and ideas behind them Its over 300 alphabetical entries cover both the documented records of actual conspiracies and the cultural and political significance of specific conspiracy speculations Neither promoting nor dismissing any theory the entries move beyond the usual biased rhetoric to provide a clear sighted dispassionate look at each conspiracy real or imagined Readers will come to understand the political and social contexts in which these theories arose the mindsets and motivations of the people promoting them the real impact of society's reactions to conspiracy fears warranted or not and the verdict when verifiable that history has passed on each case
