Is God Watching:

Is God Incompetent? Geoffrey E L Bennett, 2019 Is God to blame for natural disasters Does He cause volcanic action flooding earthquakes plague and genetic disease Can He Prevent them Why doesn't He Geoffrey E L Bennett uncovers deep Biblical insights linking them to twenty first century cultural and scientific answers Is God cruel or callous Is He impotent or incompetent How can I know if God even exists Part one explores pain and shows how different cultural groups understand God to be vindictive and cruel or else limited in power or believe that suffering does not really exist Part two examines Old Testament teaching on suffering challenging the idea of ancient wisdom Profound teaching is dissected from the minor and major prophets as well as the story of Job Then the New Testament fulfillment of prophecy is examined challenging perceived ideas and finishes with an interpretation of the Apocalypse The concluding solution to pain and suffering of God Part three deals with scientific theories and twenty first century concepts of the universe and the physical world together with raw nature and biogenetic problems What place does God have in our modern world Do natural disasters Acts of God show a limited or incompetent Deity

Where in the World is God? Kenneth J. Dale, 2020-01-02 This book has grown out of a twofold concern to follow the author's quest into the nature of the great Mystery of the universe which we call God and to share this quest with others who are willing to search for a better approach to God than the one with which most Christian people have been indoctrinated Kenneth J Dale lived much of his life in a culture which was fed by two religious streams one pantheistic Japanese Shintoism and the other atheistic Buddhism These caused the author to reflect deeply on the place of the Christians Heavenly Father in such a context Come on a journey of exploration that moves from the outer bounds of the universe to the inner recesses of the heart

Is God Still Coming? Shion Oconnor, 2022-07-19 There are worldwide concerns that the planet is on the brink of extinction but just how close are we to the end Is there a prophetic significance of Brexit for example What about climate change Since the earth was created thousands of years ago why was there no concern of a global extinction before now What is it about now that worries climatologists and meteorologists and for that matter epidemiologists and virologists Is there a prophetic significance in the timing of the Covid19 pandemic or the rise in global social unrests like BLM Did the Bible prophets foresee the rise of Silicon Valley the explosion of Artificial Intelligence or the break neck speed in information technology If so what is their prophetic utility in decoding the timetable for the end How does the combination of science and eschatology help us to appreciate our proximity to the brink This shocking revelation answers the question Is God Still Coming
