Against Death Penalty Essay

This sample essay on Against Death Penalty Essay provides important aspects of the issue and arguments for and against as well as the needed facts. Read on this essay's introduction, body paragraphs, and conclusion.

Abolishment of Capital Punishment Capital punishment should be abolished for the following reasons. 1) It violates the Eight Amendment of the use of cruel and unusual punishment, for which the Supreme Court has vacillated. 2) It is a form of premeditated murder. 3) It promotes racism. 4) It can be administered to innocent individuals through tainted evidence. 5) The death penalty does not deter criminals from committing violent crimes. The death penalty is a form of cruel and unusual punishment that violates citizen's Eighth Amendment which has forced the Supreme Court to step in and evaluate this form of punishment.

The death penalty has not always been practiced in the United States; however, there have been about 13,000 people who have been legally executed since colonial times. In 1972, the Supreme Court effectively nullified the death penalty. However, in 1976 another Supreme Court found capital punishment to be Constitutional (White 1). One must wonder why they made this decision. In 2007 the court put executions across the country on hold for eight months while it examined whether lethal injection, the most common means of executing prisoners, violated the Eight Amendment prohibition against cruel and unusual punishment (Lacayo).

How can they not see this form of punishment as cruel and unusual? Individuals are killed by electricity seeping through their bodies, or drugs that cause their organs to shut down one at a time. It's difficult to understand what the government perceives as cruel and unusual punishment. Maybe to them this would mean lining individuals up and killing them at point blank range. What could be crueller than strapping individuals to a chair and sending electricity through their bodies essentially cooking their insides, or putting a lethal dose of drugs into their body that causes organ failure.

The Death Penalty Essay Against

The method of taking another human's life is cruel no matter how it is achieved. This gives too much power to individuals in society. The death penalty is a form of premeditated murder. According to dictionary.com, murder is the killing or slaughter of an individual inhumanely or barbarously. What gives the state or normal everyday citizens the right to determine whether or not an individual lives or dies? This is essentially doing what the criminal did and justifying it by hiding behind the law. Murder is murder whether it is committed by the drug dealer on the street or by the executioner who administers the lethal dose of medication into the inmate's veins. Some individuals feel that the death penalty gives way to racism and class oppression. African Americans and Latinos represent the majority of inmates on death row. Because of this, ex

Social Psychology of Political Polarization Piercarlo Valdesolo, Jesse Graham, 2016-02-05 The 21st century political landscape has been defined by deep ideological polarization and as a result scientific inquiry into the psychological mechanisms underlying this divide has taken on increased relevance The topic is by no means new to social psychology Classic literature on intergroup conflict shows how pervasive and intractable these group conflicts can be how readily they can emerge from even minimal group identities and the hedonic rewards reaped from adopting an us vs them perspective Indeed this literature paints a bleak picture for the efficacy of any interventions geared toward reducing intergroup discord But advances in the psychology of moral judgments and behavior in particular greater understanding of how moral concerns might inform the creation and stability of political identities offer new ways forward in understanding partisan divides This volume brings together leading researchers in moral and political psychology offering new perspectives on the moral roots of political ideology and exciting new opportunities for the development of more effective applied interventions
