Construction Insurance and UK Construction Contracts Roger ter Haar, Anna Laney, Marshall Levine, 2016-05-20

Construction Insurance and UK Construction Contracts has long been the premier text for legal professionals looking for a combined analysis of construction contracts and their relation to insurance law. In a new and updated third edition, this book continues to provide in-depth commentary and pragmatic advice on all the most important regulations and policies surrounding contracts and insurance in the construction industry. Including brand new chapters on reinsurance and energy products, this book covers subjects such as Minor intermediate and major project construction contracts, Classes of insurance contract, The role of insurance brokers, Risks in construction and legal liability, Professional indemnity insurance and directors and officers liability insurance, Bonds and insurance, Latent defect insurance, Property insurance, Health and Safety and Construction Regulations, Contract Insurance, FIDIC, JCT and NEC 3 regulations, PFI PPP projects in the UK, Dispute resolution. This book is a vital reference tool and practical guide for lawyers and in-house counsels involved in the construction industry as well as project managers, quantity surveyors, construction contractors, architects and engineers needing advice from an experienced legal perspective.

Collaborative Construction Procurement and Improved Value David Mosey, 2019-06-10. The guide that explores how procurement and contracts can create an integrated team while improving value, economy, quality and client satisfaction. Collaborative Construction Procurement and Improved Value provides an important guide for project managers, lawyers, designers, constructors and operators, showing step by step how proven collaborative models and processes can move from the margins to the mainstream. It covers all stages of the project lifecycle and offers new ways to embed learning from one project to the next. Collaborative Construction Procurement and Improved Value explores how strategic thinking, intelligent team selection, contract integration and the use of digital technology can enhance the value of construction projects and programmes of work. With 50 UK case studies plus chapters from specialists in 6 other jurisdictions, it describes in detail the legal and procedural route maps for successful collaborative teams. Collaborative Construction Procurement and Improved Value examines the ways to create an effective contract that will spell success throughout the procurement process. Contains helpful case studies from real-world projects and programmes. Explores the benefits of the collaborative construction process and how to overcome common obstacles. Bridges the gaps between contract law, collaborative working and project management. Includes the first analysis of the NEC4 Alliance Contract, the FAC 1 Framework Alliance Contract and the TAC 1 Term Alliance Contract.

Financial Management in Construction Contracting Andrew Ross, Peter Williams, 2013-01-29. Financial Management in Construction Contracting. Andrew Ross, Peter Williams. This authoritative text provides a detailed insight into how construction companies manage their finances at both corporate and project level. It guides students and practitioners through the complexities of the financial reporting of construction projects within the constraints of accepted accounting practice. The book is written for non-accountants and from a contractor's

perspective and is equally relevant to subcontractors and main contractors The authors examine the relationship between the external annual accounts and the internal cost value reconciliation process CVR is covered in depth and the authors consider issues such as interim payments subcontract accounts contractual claims final accounts cash flow management and the reporting of the physical and financial progress of contracts A broad perspective of all the financial aspects of contracting is taken along with related legal issues and the authors explain how things operate in the real world They describe good practice in financial control while at the same time being honest about some of the more questionable practices that can and do happen The approach taken is unique as the financial management of construction projects is considered from the perspective of the contractor s quantity surveyor The book deals with the real issues that surveyors have to address when using their judgment to report turnover profitability cash flow and work in progress on projects and the financial problems faced by subcontractors are frankly and pragmatically explored The payment and notice requirements of the Construction Act are explained in detail and relevant provisions of JCT2011 NEC3 ICC DOM 1 and other standard contracts and subcontracts are also covered Financial Management in Construction Contracting addresses the wide variety of external factors that influence how construction companies operate including government policy banking covenants and the financial aspects of supply chain management Cost reporting systems are described and real life examples are used to illustrate cost reports accrual systems and how computerised systems can be employed to provide the QS with information that can be audited This is the ideal core text for final year degree and post graduate students and provides an invaluable reference source for all engaged in the financial management of construction projects This book s companion website is at www.wiley.com/go/rossfinancialmanagement and offers invaluable resources for both students and lecturers PowerPoint slides for lectures on each chapter Excel worksheets to practice what you learn Sample valuations and cashflows
