Medal Of Honor Recipients 1979 2014 Crs Reports:

Medal of Honor Recipients Congressional Research Service, 2014-10-29 The Medal of Honor MOH is the nation's highest award for military valor. It is presented by the President in the name of Congress and is often called the Congressional Medal of Honor. Since its first presentation in 1863, close to 3,500 MOHs have been awarded. In 1973, the Senate Committee on Veterans Affairs issued a committee print, Vietnam Era Medal of Honor Recipients 1964-72, followed by the committee print Medal of Honor Recipients 1863-1978 in 1979. Both committee prints list recipients and provide the full text of the citation, which describes the actions that resulted in the awarding of the medal. This report covers additions and changes to the list of recipients of the medal since the release of the committee print. For further information, see CRS Report 95-519, Medal of Honor History and Issues, by David F. Burrelli and Barbara Salazar Torreon. The official citations are not always consistent in wording for all recipients. Some of the citations do not contain information such as company, division, date of birth, or place of birth. An asterisk indicates those individuals who were awarded their medal posthumously.

Voices of the Iraq War Brian L. Steed, 2016-04-11 The Iraq War 2003-2011 was the most significant conflict in the early 21st century. This book examines the ongoing importance of this war for the Middle East and the world today through first-person accounts of the war and primary source documents. Voices of the Iraq War: Contemporary Accounts of Daily Life illuminates the complex and poorly reported realities of the conflict that those without direct experience cannot possibly fathom. Presenting detailed personal accounts of what the conflict in Iraq was like across multiple disciplines and through a variety of viewpoints, the accounts are based on interviews with American, Iraqi, American, and British officers who deployed and fought throughout the country of Iraq. The book begins with the story of an Iraqi boy who flees Iraq with his family after Desert Storm and then returns to Iraq as a translator to assist U.S. forces nearly 16 years later. The book is filled with personal accounts of combat and training as well as other real-world experiences that define what the Iraq War meant to thousands of U.S. and allied service members. These personal accounts are supported with national-level policy speeches and official statements that help readers put the individual stories and events in national, regional, and global perspective. The book concludes by examining the impact of this war on thousands of young men and women that will last for decades to come.

African American War Heroes James B. Martin, 2014-05-12 Detailed profiles bring stories of African American heroism in the U.S. armed forces to life from the American Revolution through the conflict in Afghanistan. African American war heroes remain largely unsung; their courage and valor relegated to the less-traveled corners of history. This work seeks out those heroes—soldiers, sailors, flyers, and marines—who earned their nation's highest medals in defense of freedom and equality. Some of these men and women died on the battlefield. Others returned to civilian life in a segregated country. What they share across time and circumstance is devotion to duty and to the country they defended, even in the face of personal and racial prejudice. Entries profile decorated African Americans from all of the U.S. conflicts since the Revolutionary War. In addition to

providing basic biographical data each profile offers a detailed account of the individual s heroic actions The book also offers sidebars on events and topics relevant to African Americans in the U S armed forces such as histories of the 54th Massachusetts and the Tuskegee Airmen

The Rise of Necro/Narco Citizenship Carlos G. Vélez-Ibáñez, 2025-03-18 Carlos G V lez Ib ez s latest work *The Rise of Necro Narco Citizenship* investigates the intricate and often harrowing dynamics that define the borderlands between the United States Mexico and beyond This groundbreaking book provides a comprehensive cultural economic social and political ecological analysis illustrating how various forms of violence and militarization have reshaped the daily lives and identities of the region s inhabitants Through meticulous ethnographic fieldwork extensive archival research and rigorous statistical data V lez Ib ez exposes the deeply entrenched networks of exploitation and conflict that have emerged in response to global capitalism s pressures V lez Ib ez builds on theorization about necrocitizenship to introduce the concept of necro narco citizenship which argues that pervasive violence and socioeconomic disruptions create a unique form of existence on both sides of the border The author examines the dislocation of thousands the persistent threat of violence and the ways in which these forces compel individuals to navigate a reality steeped in addiction self destruction and civil deterioration This book reveals the transnational networks and the morally compromised political economies that sustain them offering readers an unflinching look at the cost of survival in this tumultuous region This essential volume is not only a critical addition to the field of anthropology but also an invaluable resource for those interested in the sociopolitical landscape of the U S Mexico border V lez Ib ez s insights will resonate with scholars students and policymakers alike *The Rise of Necro Narco Citizenship* challenges us to rethink the narratives of violence militarization and resistance that define our understanding of the Southwest North American Region
