

REPORT CARD COMMENTS FOR READING

- ☐ [Student's Name] has a great love for storytelling and often incorporates an expressive way of reading. He/she takes notes on oral communication and shows constant improvement. Offering the right books will encourage him/her to read more.
- ☐ [Student's Name] is able to read paragraphs without hesitation. However, a few words of encouragement and practice are needed to make him/her understand the importance of expression and pauses in reading.
- ☐ [Student's Name] has consistently made an effort to increase reading fluency. Even if he/she has improved significantly over the course of the year, there is still space for growth. With encouragement, he/she can start reading larger texts and novels with fluency.
- ☐ The enthusiasm this [Student's Name] has for reading is very admirable. He/she is an avid reader who frequently seeks out various books on their own. His/her passion for literature class discussions and project work inspires classmates to pursue reading with the same zeal. His/her commitment to promoting a reading culture is impressive.
- ☐ [Student's Name] takes joy in reading and is always looking for ways to improve fluency. He/she positively approaches faculty members to enhance reading and asks questions without any hesitation. He/she can do better with reading practice and exploring different genres for the same.
- ☐ [Student's Name] is a comprehensive learner and often taps on different aspects of reading. He/she understands expression, tone, voice modulation, and other ways of reading effectively. He/she always tries to add a conversational style of reading thereby engaging with fellow mates.

Theory of Media Literacy W. James Potter, 2004-05-05 Our society has become characterized by aggressive media. Information is constantly at our fingertips whether it be through the books, newspapers and magazines we read, the television we watch, the radio stations to which we listen, or the computers that connect us to the world in a matter of seconds. We can try to limit our media exposure, but it is impossible to avoid all media messages. As a result, we psychologically protect ourselves by automatically processing the media to which we are exposed. **Theory of Media Literacy: A Cognitive Approach** comprehensively explains how we absorb the flood of information in our media-saturated society and examines how we often construct faulty meanings from those messages. In this book, author W. James Potter enlightens readers on the tasks of information processing. By building on a foundation of principles about how humans think, **Theory of Media Literacy** examines decisions about filtering messages, standard schema to match meaning, and higher-level skills to construct meaning. A central theme of Potter's theory is the locus that governs the degree to which a person is media-literate. The locus is enriched by developing skills as well as good knowledge structures on five topics: media effects, media content, media industries, real-world parameters, and the self. **Key Features:** Presents the first social scientific theory of the process of media literacy; Explores a broad range of literature on media literacy written over the past two decades; Focuses on how the human mind works, especially in this mass media-saturated society. **Theory of Media Literacy** is an essential resource to a wide audience within the media discipline. The book provides empirical researchers with direction to test the theory and extend our understanding of how the media affect it. **Resources in Education**, 1997

How to Grade for Learning Ken O'Connor, 2017-10-04 Implement standards-based grading practices that help students succeed. Classroom assessment methods should help students develop to their full potential, but meshing traditional grading practices with students' achievement on standards has been difficult. Making lasting changes to grading practices requires both knowledge and willpower. Discover eight guidelines for good grading, recommendations for practical applications, and suggestions for implementing new grading practices, as well as the why's and the how-to's of implementing standards-based grading practices. Tips from 48 nationally and internationally known authors and consultants. Additional information on utilizing level scores rather than percentages. Reflective exercises.
