A Conflict of Principles Carl Cohen, 2014-11-07 No state shall deny to any person within its jurisdiction the equal protection of the laws So says the Equal Protection Clause of the U S Constitution a document held dear by Carl Cohen a professor of philosophy and longtime champion of civil liberties who has devoted most of his adult life to the University of Michigan So when Cohen discovered after encountering some resistance how his school in its admirable wish to increase minority enrollment was actually practicing a form of racial discrimination calling it affirmative action he found himself at odds with his longtime allies and colleagues in an effort to defend the equal treatment of the races at his university In A Conflict of Principles Cohen tells the story of what happened at Michigan how racial preferences were devised and implemented there and what was at stake in the heated and divisive controversy that ensued He gives voice to the judicious and seldom heard liberal argument against affirmative action in college admission policies In the early 1970s as a member of the Board of Directors of the American Civil Liberties Union Cohen vigorously supported programs devised to encourage the recruitment of minorities in colleges and in private employment But some of these efforts gave deliberate preference to blacks and Hispanics seeking university admission and this Cohen recognized as a form of racism however well meaning In his book he recounts the fortunes of

contested affirmative action programs as they made their way through the legal system to the Supreme Court beginning with *DeFunis v Odegaard* 1974 at the University of Washington Law School then *Bakke v Regents of the University of California* 1978 at the Medical School on the UC Davis campus and culminating at the University of Michigan in the landmark cases of *Grutter v Bollinger* and *Gratz v Bollinger* 2003 He recounts his role in the initiation of the Michigan cases explaining the many arguments against racial preferences in college admissions He presents a principled case for the resultant amendment to the Michigan constitution of which he was a prominent advocate which prohibited preference by race in public employment and public contracting as well as in public education An eminently readable personal consistently fair minded account of the principles and politics that come into play in the struggles over affirmative action *A Conflict of Principles* is a deeply thoughtful and thought provoking contribution to our national conversation about race *On Their Own Terms* Benjamin A. Elman, 2005-04-30 In *On Their Own Terms* Benjamin A Elman offers a much needed synthesis of early Chinese science during the Jesuit period 1600 1800 and the modern sciences as they evolved in China under Protestant influence 1840s 1900 By 1600 Europe was ahead of Asia in producing basic machines such as clocks levers and pulleys that would be necessary for the mechanization of agriculture and industry In the seventeenth and eighteenth centuries Elman shows Europeans still sought from the Chinese their secrets of producing silk fine textiles and porcelain as well as large scale tea cultivation Chinese literati borrowed in turn new algebraic notations of Hindu Arabic origin Tychonic cosmology Euclidian geometry and various computational advances Since the middle of the nineteenth century imperial reformers early Republicans Guomindang party cadres and Chinese Communists have all prioritized science and technology In this book Elman gives a nuanced account of the ways in which native Chinese science evolved over four centuries under the influence of both Jesuit and Protestant missionaries In the end he argues the Chinese produced modern science on their own terms
