Young, Elizabeth G. Hinton, 2019-09-09 Framing Healthcare instruction An Information Literacy Handbook for the Health Sciences is a step by step guide to integrating the ACRL Framework for Information Literacy into health sciences librarianship Although this topic has been touched on briefly in previous publications this book is dedicated exclusively to the unique considerations of the health sciences With over fifty case studies describing explicit lesson plans and assessments health sciences librarians who may be new to the Framework or are looking for ready made lesson plans will find this guide easy to navigate and to apply to their own educational sessions Multiple disciplines are covered including nursing medicine allied health veterinary medicine and more In addition to the practical application of the case studies the books covers in depth each part of the Framework and how it relates to students in the health science *Promoting Individual and Community Health at the Library* Mary Grace Flaherty, 2018-11-30 Though today s consumers have unprecedented access to health information its quality and veracity varies widely Public libraries can play an important role in supporting library users in their health information seeking efforts In this book Flaherty shows how to guide library users to high quality health information by relying on up to date authoritative sources She also demonstrates why taking the initiative to offer health

promotion programming can be a valuable form of community outreach serving community needs while increasing visibility. Library directors, programming staff, reference librarians, and health educators will all benefit from this book's patron-centered stance which features a historic overview of the consumer health movement and how it intersects with public libraries' guidance on finding and evaluating the best print, electronic, and app-based health information sources with advice on keeping up to date, an in-depth look at collaborative efforts to provide and sponsor simple health-related activities in public libraries, spotlighting programs in action at libraries across the country, instructions on creating, planning, preparing, marketing, and evaluating a public library health program, discussions of important issues surrounding health information provision efforts including patron privacy and liability concerns, and guidelines for public libraries' role in public health efforts including disaster preparedness. Armed with this book's expert advice and plentiful examples of successful initiatives, public libraries will feel empowered to make a difference in community members' health and well-being. Encyclopedia of Health Services Research Ross M. Mullner, 2009-05-20. Within two volumes, more than 400 signed entries and their associated bibliographies and recommended readings authoritatively cover issues in both the historical and contemporary context of health services research. The Medical Library Association Guide to Managing Health Care Libraries Ruth Holst, Sharon A. Phillips, 2000. Many hospitals and health care organizations that were independent, freestanding institutions are now part of large health systems that deliver patient care in a variety of inpatient, ambulatory, and community settings. Vast changes in the U.S. health care system are reshaping how librarians provide services to physicians and other patient caregivers as well as to medical and allied health sciences students and faculty. Twenty-one experts have contributed to this groundbreaking text. Their individual chapters offer specific, practical advice on administrative issues, planning and marketing, financial management, space planning, collection development, cataloging and classification, document delivery, audiovisual services, every aspect of managing today's ever-changing health care library. Required reading for any librarian offering health care information to professionals, faculty, or consumers. Encyclopedia of Library and Information Sciences John D. McDonald, Michael Levine-Clark, 2017-03-15. The Encyclopedia of Library and Information Sciences, comprising seven volumes, now in its fourth edition, compiles the contributions of major researchers and practitioners and explores the cultural institutions of more than 30 countries. This major reference presents over 550 entries, extensively reviewed for accuracy in seven print volumes or online. The new fourth edition, which includes 55 new entries and 60 revised entries, continues to reflect the growing convergence among the disciplines that influence information and the cultural record with coverage of the latest topics as well as classic articles of historical and theoretical importance. **The Medical Library Association Guide to Answering Questions about the Affordable Care Act** Emily Vardell, 2015-10-16. Following the passage and implementation of the Affordable Care Act (ACA), librarians are more frequently called upon to provide assistance with navigating the Health Insurance Marketplace and understanding health insurance terminology and forms. Libraries offer an

ideal context for health insurance information seeking as librarians have traditionally assisted with completing public assistance forms and are well trained in ascertaining and meeting information needs This book is designed to serve as a practical guide for librarians seeking to learn more about the ACA locate authoritative nonbiased information regarding the ACA and serve patrons searching for ACA information for personal or research purposes While the book focuses specifically on the unique role that health sciences librarians play in serving the general public health care providers biomedical researchers and health sciences students the book contains guidance relevant to any information professional working with ACA information Tailored to a librarian audience this authoritative guide from the Medical Library Association begins with a general introduction to the Affordable Care Act highlighting the aspects of the ACA legislation most pertinent to librarians The following chapter focuses on the role of the librarian in relation to ACA implementation Next a chapter on health insurance literacy provides a foundation for those seeking to familiarize themselves with research on individuals understanding of health insurance concepts The following chapter builds on this foundation discussing how a librarian can breakdown an ACA question including a step by step guide The last part of the book focuses on trends in ACA and health insurance information provision It begins with a general overview of the types of ACA information services librarians are providing Next ten librarians are highlighted as case studies of the types on information services provided by health sciences librarians responding to ACA information needs These chapters are designed to serve as springboards for those librarians interested in learning best practices and recommendations The last chapter contains an authoritative list of recommended unbiased ACA resources This annotated bibliography is an excellent place for librarians to familiarize themselves with ACA logistical information as well as locate authoritative resources on insurance terminology As librarians are increasingly being called upon to address health insurance information needs from the general public as well as researchers this text provides concrete helpful advice in providing unbiased evidence based answers
