Student Plagiarism in Higher Education Diane Pecorari, Philip Shaw, 2018-10-09 *Student Plagiarism in Higher Education* is a crucial read for any university teacher concerned about plagiarism. It provides the tools and information needed to assess this often complex international phenomenon constructively and effectively from a variety of angles and provides a framework for further discussion and research. Each chapter poses a question about an essential aspect of plagiarism and examines the central theoretical, ethical, and technical questions which surround it. Providing a unique perspective on the topic of academic plagiarism, this book addresses questions which are vexing in teaching practice but for which ready answers are not available in professional skills development materials. It relates plagiarism to wider issues of learning and intellectual development, collates the thinking of international leading experts on the topic of plagiarism from different areas of the academy. *Student Plagiarism in Higher Education* provides an excellent insight which thoroughly interrogates all aspects of the plagiarism argument. Theoretically based and carefully considered contributions from international experts ensure that this volume is an invaluable asset to anyone wishing to read more, learn more, and think more about plagiarism.

The International Student's Guide to Writing a Research Paper Janine Carlock, Maeve Eberhardt, Jaime Horst, Peter Kolenich, 2017-06-13 *The International Student's Guide to Writing a Research Paper* is a reference text for undergraduate students and those in ESL or bridge courses who are writing a research paper for the first time. This book is partly an update of *Writing a Research Paper* by Lionel Menasche 1998 and partly a companion to *The ESL Writer's Handbook*. Each section of the book includes a discrete task called a Building Block which requires students to apply the skills learned toward the development of their own paper. This step by step approach allows students to construct knowledge as they become more familiar with the process, making writing a research paper a less intimidating task. Special features: This guide uses simple, direct language for those for whom writing a research paper is new. Most example writing is from international students in an ESL program or first year writing class, including two sample papers, one in APA and one in MLA. A section on responding to instructor feedback to provide students with the tools to read and understand comments and use them to improve the first draft. A subsection dedicated to constructing clear and cohesive paragraphs and sentences. The guide includes citation and style examples in MLA 8th edition.

Cannabis and Cannabinoids Ethan B Russo, 2013-09-05 Study the latest research findings by international experts. This comprehensive volume presents state of the art scientific research on the therapeutic uses of cannabis and its derivatives. All too often, discussions of the potential medical uses of this substance are distorted by political considerations that have no place in a medical debate. *Cannabis and Cannabinoids: Pharmacology, Toxicology, and Therapeutic Potential* features a fair, equitable discussion of this emerging and controversial medical topic by the world's foremost researchers. *Cannabis and Cannabinoids* examines the benefits, drawbacks, and side effects of medical marijuana as a treatment for various conditions and diseases. This book discusses the scientific basis for marijuana's use in cases of pain.

nausea anorexia and cachexia It also explores its possible benefits in glaucoma ischemia spastic disorders and migraine Cannabis and Cannabinoids examines all facets of the medical use of marijuana including botany history biochemistry pharmacology clinical use toxicology side effects Cannabis and Cannabinoids is a reference work that will become indispensable to physicians psychologists researchers biochemists graduate students and interested members of the public No other book available offers this comprehensive even handed look at a deeply divisive subject *Complete Papers* ,1970
