Mcq In Intensive Care Medicine

Mr. Rohit Manglik

Mcq In Intensive Care Medicine:

MCQS in Critical Care Medicine Sandeep Aggarwal, Gunjan Chanchalani, 1905-07-08 This is the first comprehensive book published from India which is based on MCQs primarily for doctors appearing for competitive exams in critical care medicine. It is also a must have for every doctor and nurse working in the ICU as the case scenarios and latest recommendations will help them to have a better approach towards complex situations and provide better care to the patients.

Intensive Care Medicine MCQs Shoneen Abbas, Ruth Herod, Daniel Horner, 2015-04-01 Intensive care medicine is a dynamic and evolving specialty requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple choice questions allowing self assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true/false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine while the SBA questions test the ability of the candidate to prioritise, compare options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best selling title *Multiple Choice Questions in Intensive Care Medicine* ISBN 978 1 903378 64 9 also written by Dr Steve Benington.

MCQs in Intensive Care Medicine Steve Benington, Peter Nightingale, Maire Shelly, 2009-05-01 This book provides 300 practice MCQs divided into three practice papers. This MCQ book will also be ideal in preparation for the European Diploma in Intensive Care Medicine (EDIC) Part 1 examination as the questions are matched as closely as possible in style and difficulty to those in the EDIC Part 1. Short Answer Questions and MCQs in Anaesthesia and Intensive Care, 2Ed Peter Murphy, Adrian Dashfield, 2004-08-27

Following on from the success of the first edition Short Answer Questions and MCQs in Anaesthesia and Intensive Care has been completely rewritten to reflect the changes to the final FRCA exam from a long essay based examination to compulsory short answer questions SAQs This guide aims to introduce methods and systems of answering questions succinctly and accurately Almost all of the questions have been asked in the final FRCA since 1996 and most chapters carry more detail than required to reach a pass standard The new edition takes a question orientated approach and provides guidance for the final exam Given the short time allowed for answering the SAQs previous practice prior to sitting the examination is essential Each of the twelve sections has a comprehensive set of multiple choice questions MCQ to the same standard as those set by the Royal College of Anaesthetists It is vital that candidates practice MCQs as well as SAQs and the ninety multiple choice questions that follow the SAQ paper carry just as much weight as the SAQ paper The book has been structured as topic based sections and chapters each of which can be followed and used to enable self testing This book is an invaluable revision aid during preparation for the final FRCA exam and due to the breadth of content also forms a useful ready reference throughout anaesthetic training
