

Of Mice and Men
Chapter 2 Study Guide - KEY

1. According to the old man (Candy), why was the house mad at George and Lennie?
The house had expected them to arrive the night before—as they were late.
2. What does George find in the box by his bed, and what does he suspect?
Bug killer... George suspects that the bugs have died in them.
3. Describe what we learn from Candy about the "stable hand" (Crosby).
He is a black man who lives and works in the stable. He has a crooked back because he was kicked by a horse. He needs a lot.
4. What does the house suspect George of doing to Lennie? What makes him think this?
The house thinks that George is taking Lennie's pay away from him, because he realizes that Lennie is "simple" and George always spends for him.
5. What reason does George give for taking care of Lennie?
He says that they are cousins and Lennie's "old lady" (mother) asked him to take care of him.
6. Describe Curley. What do we learn about his left hand?
He is young and thin, with curly hair. He wears high-banded boots (shows that he is not a working man). He wears a glove full of barbed wire on his left hand, to "keep it right for his wife."
7. Describe Curley's wife. Why does she come into the bunkhouse?
She has only been married to Curley for two weeks. She flirts with the other men. He is young and pretty. She wears a lot of makeup, including painting her fingernails red, and curls her hair. She wears red high heels (decorated with red velvet feathers)—completely impractical for life on a ranch. She says that she has come to the bunkhouse looking for Curley, but we get the feeling that is just an excuse.
8. Describe Slim. What is his job on the ranch? What are some of his character traits?
He is a "jerkline skinner," meaning that he is the main driver of a team of mules. He is tall and his manner commands respect. He is intelligent and has an instinctive understanding of people. The other men respect him greatly, and his word is the law.
9. What did Slim do to four of his pups and why?

guide provides a concise overview of Steinbeck's work. Though it is a short novel with relatively few characters, it is intricately structured and much more complex than some critics have acknowledged. Steinbeck considered it an experiment, and his use of language is challenging. The book includes chapters on Steinbeck's life and the place of the novel in his canon, the novel's plot, the textual background of the work, the social, cultural, literary, and intellectual contexts surrounding the novel, themes and ideas in *Of Mice and Men*, Steinbeck's literary artistry, the novel's critical and scholarly reception, and a bibliographical essay. General readers and students at all levels will find this guide to be a valuable introduction to this major American masterpiece.

Study Guide for the ParaPro Assessment, 2003 **Using Discussion to Promote Reading Comprehension** Donna E. Alvermann, Deborah R. Dillon, David G. O'Brien, 1987 Drawing from observations of discussion in 24 different classrooms, this book will provide preservice and inservice teachers at the middle and school levels with the motivation and knowledge to use discussion to foster student comprehension of content area text assignments. The first chapter examines the distinctions between discussion and recitation and redefines major issues related to content area discussion in light of recent research and school reform reports. The second chapter establishes a basis for the premise that discussion is important to the development of reading comprehension, illustrating those skills that enrich or refine students' understanding of text. The third chapter uses portions of transcripts from videotaped content class discussions to illustrate how classroom context influences discussion practices. Alternatives to teacher-dominated discussions are described, and guidelines are provided for establishing the rights and responsibilities of critical readers. The fourth chapter demonstrates how to plan for classroom discussion of assigned material, describing five aspects of the planning process. The fifth chapter presents discussion strategies that help students master the content, examine more than one side of the issue, and evaluate alternative solutions to a text-based problem, while the sixth chapter analyzes one content area teacher's implementation of a preplanned discussion. Finally, the seventh chapter describes two procedures for informally evaluating classroom discussion used to promote reading comprehension. References follow each chapter. HTH
