

<p>1 Observation: Lily's Flowers, April</p> <p>Lily and Sue sat together with Sue watching Lily as she tried to copy the postcard of flowers. Annabelle walked past and was interested, so stopped to watch Lily.</p>	<p>Interpretation and analysis</p> <p>Lily was keen to mix and stir the paints herself. She was happy with her painting and smiled while painting.</p>	<p>Comment</p> <p>The interpretation is framed as a description, not an analysis.</p> <p>How do we know that Lily is happy?</p> <p>What led to this interpretation — is it related to body language? if so, say so.</p>
<p>2 Observation: Lily's Flowers, 21 April</p> <p>Sue, Lily and Annabelle sit and talk together while Lily paints her picture of flowers from the postcard.</p> <p>Lily talks with Annabelle and Sue about the colours she is using.</p>	<p>Interpretation and analysis</p> <p>Lily seems very interested in painting using the postcard flowers as a reference point.</p> <p>She smiles and talks with Sue and Annabelle and is keen to mix the paints with Annabelle watching.</p>	<p>Comment</p> <p>The interpretation lacks specificity about Lily's learning. It attempts to introduce some information about dispositions and relationships between the group members but without analysis.</p> <p>The interpretation appears as a description, not an analysis.</p>
<p>3 Observation: Lily's Flowers, 21 April</p> <p>Lily, Sue and Annabelle — Indoor play</p> <p>Lily has been experimenting with paint combinations over several days. In discussion with Sue (assistant) we decided to introduce small pots of paints and a mixing palette (off screen) so that Lily could create her own colour combinations.</p> <p>Sue introduced a postcard of flowers, as Lily has been talking about the flowers in her own garden at home.</p> <p>As Lily painted she looked at the postcard very carefully, using the colours in the postcard on her paper. As she painted, she said to Annabelle, "I'm using gold first 'cause that's my favourite, then the green". Annabelle then passed the red paint and laughed "red's last!" Lily laughed and took the pot, stirring vigorously.</p>	<p>Interpretation and analysis</p> <p>Working at the table gave Lily more stability to mix the paints and appeared to invite more possibilities for conversation with others than at the easels.</p> <p>Lily's attention to detail (through action and conversation), seems to signal her interest in the experience.</p> <p>Lily was particularly interested in this experience, and represented the colours of the postcard flowers in the same relative location on her paper. She is attempting to represent the flowers through close observation and attention to placement of colours.</p> <p>Link to QKLG: Active learning — ways to represent ideas creatively through art, showing confidence and involvement in learning.</p>	<p>Comment</p> <p>The analysis moves from the previously general descriptions to interpretation and analysis.</p> <p>It ends with a link to specific aspects of learning and development identified in the Queensland kindergarten learning guideline.</p>

Berry and Kohn's Operating Room Technique Nancy Marie Fortunato Phillips, 2007 For 50 years Berry Kohn's *Operating Room Technique* has been the text of choice for understanding basic surgical principles and techniques. Berry Kohn's enjoys continued success in both educational and professional markets because of its readability, accuracy, clarity, and comprehensiveness. It covers the nuts and bolts of surgical techniques in a step-by-step format that enables learners to effectively apply basic principles to clinical practice. The eleventh edition features an engaging full-color design, a new chapter on spinal surgery, new Patient and Team Safety boxes, unique perioperative flash cards, expanded teaching supplements for instructors, and much more. Prepares the nurse for actual OR situations with point-by-point descriptions of perioperative settings, procedures, and technology. Explains both the fundamentals of surgical techniques and today's most commonly performed procedures in terms that can readily be translated into clinical practice. Focuses on the physiologic, psychologic, and spiritual considerations of perioperative patients to provide learners with a knowledge base for planning and implementing comprehensive individualized care. Features in-depth discussions of patients with special needs related to age or health status, considerations with an emphasis on developing plans of care tailored to the unique care parameters of all patients. Reflects a focus on professionalism, skilled teamwork, and start-to-finish cooperation among perioperative caregivers aimed at improving patient outcomes. Discusses perioperative patient care for both inpatient and ambulatory procedures to highlight considerations based on the setting as well as the surgical procedure itself. Provides detailed information about the fundamentals of perioperative nursing and surgical technology roles. Attractive and engaging full-color internal design and approximately 380 full-color illustrations depict key perioperative principles and surgical anatomy, techniques, and instrumentation. Two-sided perioperative flash cards incorporate images from the book to help students learn concepts such as positioning, dissection, incisions, and sutures. These are provided on perforated card stock in the front of the text. A new chapter on Spinal Surgery expands upon the important subspecialty of neurosurgery. Enhanced chapter opener pedagogy previews the concepts and techniques covered in the chapter. Chapter Objectives, Chapter Outline, new Key Terms, and Definitions.
