Meade Computer Star Guide User Manual:

The NexStar User's Guide II Michael Swanson, 2017-10-31 Michael Swanson's online discussions with literally thousands of NexStar owners made it clear that there was a desperate need for a book such as this one that provides a complete detailed guide to buying using and maintaining NexStar telescopes. Although this book is highly comprehensive it is suitable for beginners there is a chapter on Astronomy Basics and experts alike. Celestron's NexStar telescopes were introduced in 1999 beginning with their first computer controlled go to model a 5 inch. More models appeared in quick succession and Celestron's new range made it one of the two dominant manufacturers of affordable go to telescopes. *Star Ware* Philip S. Harrington, 2011-02-25 Praise for Star Ware. Star Ware is still a tour de force that any experienced amateur will find invaluable and which hardware minded beginners will thoroughly enjoy. Robert Burnham Sky distributors dealers and conventions and corporate listings for products and services. *Database End-user*, 1992 **Choosing and Using a New CAT** Rod Mollise, 2009-02-28 Choosing and Using the New CAT will supersede the author's successful Choosing and Using a Schmidt Cassegrain Telescope which has enjoyed enthusiastic support from the amateur astronomy community for the past seven years. Since the first book was published a lot has changed in the technology of amateur astronomy. The sophistication and variety of the telescopes available to amateurs has increased dramatically. Computerized SCTs Maksutov Cassegrains and most recently Meade's new and acclaimed Ritchey Chr tiens have come to dominate the market. That means that all amateurs considering the purchase of a new telescope not only a SCT and not just beginners will benefit from this detailed guide. Choosing the right telescope for particular kinds of observation or even for general work is far from easy but Rod Mollise gives invaluable advice and guidance. *Data Base Directory*, 1994 **Guide to Special Issues and Indexes of Periodicals** Miriam Uhlan, Doris B.
