Meade® DS-2130ATS **130mm (5.1") Altazimuth Reflector**

LARGE APERTURE GO TO TELESCOPE

Reflectors have long been a favorite with amateur astronomers. The large 130mm diameter mirror of the Meade DS-2130ATS provides 469% brighter images and a tremendous increase in fine detail, compared to common 60mm telescopes.

The standard equipment #494 AutoStar® Computer Control System permits automatic object location and tracking of more than 1400 objects in the AutoStar database at the touch of a button.

See fainter and more distant objects in far greater detail. Several thousand star clusters, galaxies and nebulae are within range of this telescope. This model is highly recommended for astronomical applications; however, due to its image orientation it is not recommended for land viewing.

Includes two premium 4-element Super Plössl eyepieces.

2

SPECIFICATIONS

Meade Model DS-2130ATS (P/N: 20132) — Supplied complete with aluminumized and multi-coated primary mirror (D = 130mm, F = 1000mm, f/7.7) • Motorized tracking mount (requires eight user-supplied AA-size batteries) • #494 AutoStar Computer Control System • Meade PC-compatible astronomical software • Full-length adjustable aluminum tripod with accessory shelf • 6 x 30mm viewfinder; two premium eyepieces (1.25"): SP 9.7mm, and SP 26mm • Operating instructions • Giftbox.

Meade Ds 90 Telescopes Owners Manual

Patrick Vollmar

Meade Ds 90 Telescopes Owners Manual:

Star Ware Philip S. Harrington, 2002-10-16 This is the third edition of Phil Harrington's popular and comprehensive guide to astronomical equipment written for both new astronomers as well as experienced amateurs. It includes numerous tips and tricks from other experienced astronomers. In this revised and updated edition of Star Ware the essential guide to buying astronomical equipment award winning astronomy writer Philip Harrington does the work for you analyzing and exploring today's astronomy market and offering point by point comparisons of everything you need. Whether you're an experienced amateur astronomer or just getting started. **Telescope Making**, 1990 **Deep Sky**, 1990 Astronomy with Small Telescopes Stephen Tonkin, 2012-12-06 Small telescopes have a lot to recommend them. Cost is of course a consideration but their most positive feature is sheer portability. Some manufacturers have tried to make large telescopes more portable with mixed success but the opposite approach that of making small telescopes more effective is what this book is all about. Good 2 inch 60mm telescopes are now available for beginners and major American manufacturers now offer small affordable computer controlled instruments that are capable of superb results. Stephen Tonkin has gathered the experience of users of small telescopes to provide an insight into just what is possible for newcomers to astronomy or experienced observers who simply want to use a small really portable telescope. **Astronomy Now**, 2008 **Astronomy**, 1987 *Popular Photography*, 1999-08 **Popular Photography**, 1990-07 **Popular Photography**, 1990-04 **Popular Photography**, 1990-05 Popular Photography, 1990-01 Popular Photography, 1994 The Spectator, 1901 A weekly review of politics literature theology and art Readers' Guide to Periodical Literature Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1989 An author subject index to selected general interest periodicals of reference value in libraries **Modern Photography**, 1988 *The Advertising Red Books*, 2010 *Cumulated Index to the Books*, 1999 **Sterne und Weltraum**, 2004 *Instruction Manual* Meade Instruments Corp, 199? **A User's Guide to the Meade LXD55 and LXD75 Telescopes** Martin Peston, 2010-04-28 I have owned telescopes for over 25 years since I was a young lad I purchased an LXD55 AR 6 Refractor in 2002 and was one of the first to own one in the UK. I am also a proud owner of an LXD75 SC 8 Armed with these two very different telescopes I have spent many hours searching the skies for interesting objects using Meade's Autostar Goto facility. My motivation to write a book about the LXD Goto telescope series first came from comments about an LXD55 AR 6 Refractor review that was published on the LXD55.com website. From then on I have had regular emails from people asking technical questions about the telescope and which model is best suited for them. Whilst attending Star parties in the UK I found that many LXD owners would struggle to use them even at a basic level especially if they have never owned or used an equatorially mounted Goto telescope before. Since the first LXD55 models came out in early 2002 owners have struggled to find useful information to help them use the telescopes to the best advantage. There have been mixed reactions about its quality and performance. Hence this book is directed towards those

who are new to Goto and the LXD telescope

Delve into the emotional tapestry woven by Crafted by in **Meade Ds 90 Telescopes Owners Manual** .
