Manual práctico de la construccion de los instrumentos y máquinas aratorias ... 2a Edicion de el Agrónomo José de HIDALGO TABLADA,1851 *Brazil's Steel City* Oliver Dinius,2010-10-01 Brazil s Steel City presents a social history of the National Steel Company CSN Brazil s foremost state owned company and largest industrial enterprise in the mid twentieth century It focuses on the role the steelworkers played in Brazil s social and economic development under the country s import substitution policies from the early 1940s to the 1964 military coup Counter to prevalent interpretations of industrial labor in Latin America where workers figure above all as victims of capitalist exploitation Dinius shows that CSN workers held strategic power and used it to reshape the company s labor regime extracting impressive wage gains and benefits Dinius argues that these workers and their peers in similarly strategic industries had the power to undermine the state capitalist development model prevalent in the large economies of postwar Latin America *Catalog of Copyright Entries.
