Manual Jobs Harrogate:

A Measured Life Richard Hoggart, 2020-03-06 Richard Hoggart's book *The Uses of Literacy* established his reputation as a uniquely sensitive and observant chronicler of English working class life. This pioneering work first published in 1957 examines changes in the life and values of the English working class in response to mass media. It maps out a new methodology in cultural studies based around interdisciplinary and a concern with how texts in this case mass publications are stitched into the patterns of lived experience. Mixing personal memoir with social history and cultural critique, *The Uses of Literacy* anticipates recent interest in modes of cultural analysis that refuse to hide the author behind the mask of objective social scientific technique. In its method and in its rich accumulation of the detail of working class life, this volume remains useful and absorbing.

Getting a Job, Finding a Home Julie Rugg, Anwen Jones, 1999 How easy or difficult is it for young people to get a job and to find a home in the countryside? Debates surrounding youth policy tend to focus on young people in urban areas despite a high proportion of young people living in the countryside. Furthermore, problems that are often thought of as specifically urban such as housing need, unemployment and social alienation are also experienced by rural youth. This report examines the experience of young people getting a job and finding a home in rural districts. Only a very small number of the 60 young people interviewed actually found a sustainable independent place for themselves in rural communities. *Getting a job finding a home* looks at the housing and employment circumstances of the young people interviewed, discusses how the young people judged their experience of living in the countryside, focuses on the experience of single young people balancing housing, employment and transport options, considers problems associated with making transitions to adulthood in the countryside. The authors conclude with a number of policy implications including issues relating to rurality, family support, employment, housing, transport and household formation. Helping young people to make a successful transition to independence in rural areas requires an holistic policy response that considers housing, employment and transport as a joint issue.
