Handbook of Research on Metaheuristics for Order Picking Optimization in Warehouses to Smart Cities Ochoa Ortiz-Zezzatti, Alberto, Rivera, Gilberto, Gómez-Santillán, Claudia, Sánchez-Lara, Benito, 2019-04-05 Building accurate algorithms for the optimization of picking orders is a difficult task especially when one considers the delays of real world situations In warehouse environments diverse algorithms must be developed to enhance the global performance relating to combining customer orders into picking orders to reduce wait times The Handbook of Research on Metaheuristics for Order Picking Optimization in Warehouses to Smart Cities is a pivotal reference source that addresses strategies for developing able algorithms in order to build better picking orders and the impact of these strategies on the picking systems in which diverse algorithms are implemented While highlighting topics such ABC optimization environmental intelligence and order batching this publication examines common picking aspects in warehouse environments ranging from manual order picking systems to automated retrieval systems This book is intended for researchers teachers engineers managers and practitioners seeking research on algorithms to enhance the order picking performance *Research Advances in Network Technologies* Anshul Verma, Pradeepika Verma, Kiran Kumar Pattanaik, Lalit Garg, 2023-03-16 In current digital era information is an important asset for our daily life as well as for small and large scale businesses The network technologies are the main enablers that connect the computing devices and resources together to collect process and share vital information locally as well as globally The network technologies provide efficient flexible and seamless communication while maximizing productivity and resources for our day to day lives and business operations For all its importance this domain has evolved drastically from the traditional wired networks to Bluetooth infrared waves micro waves radio waves and satellite networks Nowadays network technologies are not only restricted to computer laboratories offices or homes many other diverse areas have been witnessed where network technologies are being used based on the applications and needs such as vehicular ad hoc networks underwater networks and the Internet of Things Along with the hardware based and physical network technologies a lot of research has been carried out by researchers from academia and industry to develop emerging software based network technologies such as network software architectures middleware and protocol stacks The software based network technologies become the main driving force behind the paradigm shift in this domain and have invented many new network technologies such as grid computing cloud computing fog computing edge computing software defined networks content centric networks and so on On the other hand a lot of efforts have been made in cellular network technologies to improve the user experience and as a consequence emerging cellular network technologies like LTE VoLTE and 5G have been invented Due to its demand and importance in present and future scenarios numerous efforts have been done in the networking domain by the researchers a lot of work is still ongoing and many more possibilities have yet to be explored Therefore there is a need to keep track of advancements related to the network technologies and further investigate several

ongoing research challenges for the ease of users With this goal in mind Research Advances in Network Technologies presents the most recent and notable research on network technologies Artificial Intelligence, Blockchain, Computing and Security Volume 2 Arvind Dagur,Karan Singh,Pawan Singh Mehra,Dhirendra Kumar Shukla,2023-12-01 This book contains the conference proceedings of ICABCS 2023 a non profit conference with the objective to provide a platform that allows academicians researchers scholars and students from various institutions universities and industries in India and abroad to exchange their research and innovative ideas in the field of Artificial Intelligence Blockchain Computing and Security It explores the recent advancement in field of Artificial Intelligence Blockchain Communication and Security in this digital era for novice to profound knowledge about cutting edges in artificial intelligence financial secure transaction monitoring real time assistance and security for advanced stage learners researchers academicians The key features of this book are Broad knowledge and research trends in artificial intelligence and blockchain with security and their role in smart living assistance Depiction of system model and architecture for clear picture of AI in real life Discussion on the role of Artificial Intelligence and Blockchain in various real life problems across sectors including banking healthcare navigation communication security Explanation of the challenges and opportunities in AI and Blockchain based healthcare education banking and related industries This book will be of great interest to researchers academicians undergraduate students postgraduate students research scholars industry professionals technologists and entrepreneurs **A Complete Guide to Wireless Sensor Networks** Ankur Dumka,Sandip K. Chaurasiya,Arindam Biswas,Hardwari Lal Mandoria,2019-05-31 This book provides comprehensive coverage of the major aspects in designing implementing and deploying wireless sensor networks by discussing present research on WSNs and their applications in various disciplines It familiarizes readers with the current state of WSNs and how such networks can be improved to achieve effectiveness and efficiency It starts with a detailed introduction of wireless sensor networks and their applications and proceeds with layered architecture of WSNs It also addresses prominent issues such as mobility heterogeneity fault tolerance intermittent connectivity and cross layer optimization along with a number of existing solutions to stimulate future research Wireless Communication Prashant Ranjan,Ram Shringar Rao,Krishna Kumar,Pankaj Sharma,2022-08-10 This reference text will benefit readers in enhancing their understanding of the recent technologies protocols and challenges in various stages of development of wireless communication and networking The text discusses the cellular concepts of 4G 5G and 6G along with their challenges It covers topics related to vehicular technology wherein vehicles communicate with the traffic and the environment around them using short range wireless signals The text comprehensively covers important topics including use of the Internet of Things IoT in wireless communication architecture and protocols It further covers the role of smart antennas in emerging wireless technologies The book Discusses advanced techniques used in the field of wireless communication Covers technologies including network slicing 5G wireless communication and TV white space technology Discusses practical

applications including drone delivery systems public safety IoT virtual reality and smart cities Covers radio theory and applications for wireless communication with ranges of centimeters to hundreds of meters Discusses important topics including metamaterials inductance coupling for loop antennas bluetooth low energy wireless security and wireless sensor networks Discussing latest technologies including 5G 6G IoT vehicular technology and TV white space technology this text will be useful for senior undergraduate graduate students and professionals in the fields of electrical engineering and electronics and communication engineering **Computer Applications and Quantitative Methods in Archaeology** ,1997 **Indian Library Science Abstracts** ,2003 *A Subject Index to Current Literature* Australian Public Affairs Information Service, The Impact Factor of Scientific and Scholarly Journals Tibor Braun,2007 **APAIS, Australian Public Affairs Information Service** ,1995 Vol for 1963 includes section Current Australian serials a subject list The Proceedings of the Fourth Conference on Hypercubes, Concurrent Computers, and Applications: Software, applications ,1989 **Australian Computer Journal** ,1975 **The Australian Computer Journal** ,1976 Current Index to Journals in Education ,1993 *AIA Journal* American Institute of Architects,1982 **IBM Systems Journal** ,1966 **Documentation Abstracts** ,1999 *Journal of Zhejiang University* ,2006 **MLA News** Medical Library Association,1961 *Official Journal of the European Communities* ,1997
