

2-2 TUNING

detailed service work is required, the chapter containing the instructions will be referenced.

Each year higher compression ratios are built into modern outboard engines and the electrical systems become more complex, especially with electronic capacitor discharge units. Therefore, the need for reliable, authoritative, and detailed instructions becomes more critical. The information in this chapter and the referenced chapters fulfill that requirement.

2-2 TUNE-UP SEQUENCE

If twenty different mechanics were asked the question, "What constitutes a major and minor tune-up?", it is entirely possible twenty different answers would be given. As the terms are used in this manual and other outboard books, the following work is normally performed for a minor and major tune-up.

Minor Tune-up

- Lubricate engine.
- Drain and replace gear oil.
- Adjust points.
- Adjust carburetor.
- Clean exterior surface of engine.
- Task test engine for fine adjustments.

The time, effort, and expense of a tune-up will not restore an engine to satisfactory performance, if the pistons are damaged.

Major Tune-up

- Remove heads.
- Clean carbon from pistons and cylinders.
- Clean and overhaul carburetor.
- Clean and overhaul fuel pump.
- Rebuild and adjust ignition system.
- Lubricate engine.
- Drain and replace gear oil.
- Clean exterior surface of engine.
- Task test engine for fine adjustments.

During a major tune-up, a definite sequence of service work should be followed to return the engine to the maximum performance desired. This type of work should not be confused with attempting to locate problem areas of "who" the engine is not performing satisfactorily. This work is classified as "troubleshooting". In many cases, these two areas will overlap, because many times a minor or major tune-up will correct the malfunction and return the system to normal operation.

The following list is a suggested sequence of tasks to perform during the tune-up service work. The tasks are merely listed here. Generally procedures are given in subsequent sections of this chapter. For more detailed instructions, see the referenced chapter.

- 1- Perform a compression check of each cylinder. See Chapter 3.

A boat and lower unit covered with marine growth. Such a condition is a serious hindrance to satisfactory performance.
