A Unified Theory of Justice and Crime Michael J. DeValve, Tammy S. Garland, Elizabeth Q. Wright, 2018-09-15 Despite great effort and some improvements criminal justice today still seems like an oxymoron There are some very good reasons for this feeling catastrophic failures abound and marginal improvements appear revolutionary This book addresses the idea of justice in order to guide society toward a more effective justice system Specifically the authors argue that justice and love are one and the same thing They trace impoverished and accomplished thinking in criminological and justice discourses and show that the historic ills that have plagued humanity tend to evaporate when justice and love are understood to be synonyms

Unfairly Labeled Jessica Kriegel, 2016-02-10 A blueprint for managing people not generations Unfairly Labeled challenges the very concept of generational differences as an unfair generalization and offers a roadmap to intergenerational understanding While acknowledging that generational stereotypes exist author Jessica Kriegel argues that they are wrong and that it s unreasonable to assume that the millions of people born in the same 20 year time span are motivated by the same things attracted to the same things and should be dealt with in the same way Kriegel s experience as Organizational Developer at Oracle puts her squarely in the talent strategy realm where she works to optimize leadership development team effectiveness and organizational design Drawing upon her experiences with workers of all ages and types she shows how behaviors know no generational boundaries and how to work with people based on their talents strengths and weaknesses rather than simply slapping on a generational label and fitting them into an arbitrary slot There are 80 million Millennials in America yet there are myriad books on managing Millennials and working with Millennials and the problem with Millennials This book shows that whether you re working with Millennials Generation X or Baby Boomers age is not the issue it s the interpersonal dynamics that matter most Examine the concept of generational issues Explore the disparate reality of each 20

year generational span Learn to understand and work effectively with other generations Facilitate intergenerational understanding sessions The human mind craves categorization so the tendency to lump people together is natural It may however be holding your organization back The members of each generation have only one thing in common their age and even that varies by two whole decades Why assume that they should all be managed the same way Unfairly Labeled shows you a better way and provides a roadmap to a more effective organizational strategy
