Studies in History, Economics, and Public Law, 1907 **Sociology of the Law** William J. Chambliss, Robert B. Seidman, 1970 **Rediscovering the Democratic Purposes of Education** Lorraine McDonnell, P. Michael Timpone, Roger W. Benjamin, 2000 Why do America's public schools seem unable to meet today's social challenges As competing interest groups vie over issues like funding and curricula we seem to have lost sight of the democratic purposes originally intended for public education Public schools were envisioned by the Founders as democratically run institutions for instilling civic values but today's education system seems more concerned with producing good employees than good citizens Meanwhile our country's diversity has eroded consensus about citizenship and the professionalization of educators has diminished public involvement in schools This volume seeks to demonstrate that the democratic purposes of education are not outmoded ideas but can continue to be driving forces in public education Nine original articles by some of today's leading education theorists cut a broad swath across the political spectrum to examine how those democratic purposes might be redefined and revived It both establishes the intellectual foundation for revitalizing American schools and offers concrete ideas for how the educational process can be made more democratic The authors make a case for better empirical research about the politics of education in order to both reconnect schools to their communities and help educators instill citizenship An initial series of articles reexamines the original premise of American education as articulated by important thinkers like Jefferson and Dewey A second group identifies flaws in how schools are currently governed and offers models for change A final section analyzes the value conflicts posed by the twin strands of democratic socialization and governance and their implications for education policy Spanning philosophy history sociology and political science this book brings together the best current thinking about the specifics of education policy vouchers charter schools national testing and about the role of deliberation in a democracy It offers a cogent alternative to the exchange paradigm and shows how much more needs to be understood about an issue so

vital to America's future **Southern Economic Journal** ,1927 *The Journal of Heredity* ,1927 The journal discusses articles on gene action regulation and transmission in both plant and animal species including the genetic aspects of botany cytogenetics and evolution zoology and molecular and developmental biology
