**ICEL2016-Proceedings of the 11th International Conference on e- Learning** Prof. Dr. Rozhan M. Idrus and Dr Nurkhamimi Zainuddin,2016      **African Peace Militaries** David Francis,2017-08-16 This book provides a critical understanding of the emerging role of African militaries in peacetime democratic Africa This book departs from the dominant perspective which simply presents the military as an enemy of democracy because of the history and legacy of unending military coup d tats and interventions in civilian politics In the context of Africa the military has been blamed or largely held responsible for instigating wars armed conflicts political violence poverty and underdevelopment due to bad governance and mismanagement of the state Drawing from diverse case studies across Africa including Nigeria Rwanda Uganda Ethiopia and Egypt this volume presents the argument that though the military has played a negative and sometimes destructive role in undermining constitutional rule and the overthrow of democratic civilian governments the same military now operating in a changed global environment is making effort to support the development of democracy and democratic consolidation as well as remain subjected to civilian democratic oversight and control Notwithstanding the real challenge for this emerging trend of African peace militaries is the extent to which they are able to fulfil on a predictable and consistent basis their constitutional mandate to defend the people against elected autocrats in Africa who try to use the military to perpetuate themselves in power This work fills a critical gap in the literature and will be of much interest to students of African security and politics peace and conflict studies security studies and IR in general      *Work Appropriation and Social Inequality* Antonia Kupfer,2021-09-07 This volume is a collection of subject oriented studies on paid work Each chapter refers to the social structures that form conditions for peoples working contexts and interprets workers and employees narrations on work Work appropriation a process of formation of subjectivity in which workers and employees relate to the social status of their occupations and the use value of their work in actively dealing with the work s content and conditions serves as a comprehensive concept for each varying subject oriented approach in the volume Work Appropriation and Social Inequality focuses on social inequality understood as the distribution of life chances that privilege some and discriminate others and reveals the unequal conditions for and outcomes of work appropriation By analyzing work appropriation it uses a broader concept than that of meaning of work or meaningful work as it includes the practice and processes of working The volume s subject oriented approach to work differs from the stream subjectivation in going beyond individuals desires for self realization in work and to companies requirements of accessing emotional and personal dimensions of their workforce The volume contains three parts the first lays out basic approaches to work appropriation and social inequality the second analyses current threats to work appropriation in the UK and Germany and the third consists of a philosophical outlook on work in the Anthropocene The book s impact lies in pushing forward the debate on how work appropriations are linked to unequal social structures It will therefore appeal to social scientists interested in social inequality sociology of work and

organization as well as students and teachers at the undergraduate and graduate level in the areas of social sciences
