Words for Feelings Olivier Luminet,Kristy Nielson,Nathan Ridout,2024-08-23 Alexithymia is a multifaceted construct that is characterized by several facets including difficulties identifying one s feelings difficulties describing one s feelings to others and an externally focused utilitarian cognitive style In the long term higher alexithymia scores represent risks factors for poorer mental and physical health outcomes There is however a lack of systematic understanding of the underlying processes that can explain these vulnerabilities This book shows that the facets of alexithymia influence several aspects of how one perceives and responds to neutral and emotional situations by impacting multiple cognitive processes attention appraisals memory language and behavior The effects are influenced by context with some situations leading to deficits in emotion responding and others that contribute to emotional over responding The book shows the importance of drawing better connections amongst multiple processes toward disentangling them and revealing where early processes have impacts on later processes A lack of correspondence between processes as well as amongst alexithymia facets is expected to lead to ineffective and inflexible emotion regulation thereby posing elevated risks for physical and mental illness The chapters in this book were originally published as a special issue of Cognition and Emotion The English Catalogue of Books ... Malbon,2020-12-14 In 21st century America personhood is under daily assault sometimes with dire consequences Scientist ethicist and ordained minister Craig C Malbon encourages the reader to consider such assaults on personhood endured by victims of abortion ageism Alzheimer s disease drug addiction mental and physical disabilities gender gender orientation racism sexual preference identity politics and our will to power over the other In exploring personhood

status Malbon poses difficult questions for us Is personhood assigned as all or nothing or is it a sliding scale based upon criteria arbitrarily aimed at our vulnerabilities Does the voiceless embryo and fetus have advocates who can speak to the moral question of abortion Is the personhood of an economically insecure pregnant woman degraded to the point where lack of access to early termination of pregnancy results in coercive childbearing Does being a member of the LGBTQI community target one for assaults on personhood to the extreme of being killed In delving into the biology and psychology of assaults of self upon the other Malbon sees powerful linkages of everyday assaults on personhood to darker profound original sins that are foundational to the rise of the American empire i e assaults on the indigenous Native Americans and assaults derivative to the institution of slavery upon Africans African Americans and their descendants **The English Catalogue of Books [annual].** ,1921 Vols 1898 include a directory of publishers
