Independent Schooling in Post-apartheid South Africa Jacques Du Toit, 2004 This paper presents a quantitative overview of the current South African independent schooling sector Historically research on the sector has been partial resulting in questions about its current size and profile A recent survey revealed that the sector has grown considerably since the nineties and that official sources underestimate its size Some popular myths about the sector being largely white and elitist are dispelled by the study which shows that historically disadvantaged learners currently constitute more than 70% of all learners and that more than 50% of all schools charge low to average fees However there is also evidence of new forms of inequity emerging and poor performance in parts of the independent sector of which roleplayers in the sector should be aware HSRC website **This Week in South Africa** ,1998 A weekly news summary of the major daily newspapers in the Pretoria Johannesburg metropolitan area *Financial Mail* ,2004-11 **Platinum Mathematics Grade 10 Learner's Book ePDF** , This note is part of Quality testing **Oxford Successful Mathematics** ,2012 **Mathematics.
