*STE\*M: STEM Education for All* Marie-Louise Botha, Hanne Deprez, Oliver Holz, Robin Schaefferbeke, 2025 STEM education which encompasses Science Technology Engineering and Mathematics is of paramount importance in the 21st century. Currently there is a global call for a technologically skilled workforce for the 21st century workplace related to scarce skill subjects such as Mathematics Science ICT and Arts. Furthermore these skills and jobs are not promoted effectively in wider communities. In this era of rapid technological advancements and complex global challenges including a shortage of qualified STEM educators and under resourced schools STEM education is essential. It equips individuals with critical skills for success through collaborative and interdisciplinary approaches. The asterisk in STEM reflects its evolving nature promoting interdisciplinary collaboration to develop critical skills needed in a rapidly changing technology driven world. The scope of the book is multi faceted and explores a range of practices and research contexts such as student STE M stimulated experiences transdisciplinarity diversity and inclusion in STE M education and science teaching in primary and secondary schools. The contributions show different perspectives from Belgium Botswana Germany Namibia South Africa and the United States of America. Medical Geology of Africa Theophilus Clavell Davies, 2024-06-14 Medical Geology of Africa explores the connection between geological materials processes and the health of humans and animals. The book fosters an improved understanding of the ways in which the geological environment impacts the geographical distribution of health problems and how they contribute to better diagnoses and therapy. Africa s unique geoenvironmental condition gives added relevance to such studies underlining the need for geoscience and public health students and practitioners to understand new principles and applications. Chapters in the book provide extended enquiry based investigations and examples that employ real geochemical datasets epidemiological records public health statistics and visualizations. Provides a summary of current research on Medical Geology of Africa. Identifies gaps in knowledge of the role of the geo environment in deciphering unknown aetiologies. Assembles the most recent literature on current thematic issues and prescribes directions of future research. Working with indigenous knowledge Fhumulani M. Mulaudzi, Rachel T. Lebesse, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences. The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience. In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals. This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space. The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu. Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped.

in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research Climate Change Strategies: Handling the Challenges of Adapting to a Changing Climate Walter Leal Filho, Marina Kovaleva, Fátima Alves, Ismaila Rimi Abubakar, 2023-06-01 This book includes information experiences practical initiatives and projects around the subject matter and makes it available to a wide audience It addresses the scientific social political and cultural aspects of climate change impacts and respective solutions in an integrated and coherent way Climate change as a global phenomenon imposes new challenges for survival Extreme weather events including heat waves storms droughts as well as rising sea levels warming oceans and melting glaciers threaten people s livelihoods and communities ecosystems and habitats Furthermore it affects the entire food chain and increases competition for natural resources fuelling socioeconomic tensions The results of the latest IPCC report highlight the urgent need for combating climate change The adaptation measures to be undertaken range across sectors thematic fields and geographical locations Based on this need the book focuses on the high quality interdisciplinary contributions on the scientific social economic political and cultural aspects of climate change challenges and solutions *A youth empowerment model designed to tackle school violence in South Africa* Fathima Dewan, 2024-12-17 School based violence is of major concern in the South African schooling system particularly in secondary schools School based violence has a negative impact on the physical social cognitive and emotional well being of learners and teachers To compound matters family and community environment also play a role in escalating school violence There is a need to develop interventions that are evidence based and developmental in nature to address the issue of reducing school based violence Youth empowerment can be used as a helpful strategy to address the issue of school based violence This scholarly book focuses on using the framework of youth empowerment to address the issue of school based violence Through sound research the author proposes that schools should involve learners in decision making around school policies and design strategies to address school violence to create safer schools and a better school climate The author further posits using key aspects of youth empowerment in school violence campaigns and programmes to increase youth motivation to collectively influence changes within their school through a process of shared decision making collective vision and partnership with young people **Global Degradation of Soil and Water Resources** Rui Li, Ted L.
