Fundamental Concepts in Electrical and Computer Engineering with Practical Design Problems Reza Adhami, III Peter M. Meenen, Peter Meenen, Denis Hite, 2007 In many cases the beginning engineering student is thrown into upper level engineering courses without an adequate introduction to the basic material This at best causes undue stress on the student as they feel unprepared when faced with unfamiliar material and at worst results in students dropping out of the program or changing majors when they discover that their chosen field of engineering is not what they thought it was The purpose of this text is to introduce the student to a general cross section of the field of electrical and computer engineering The text is aimed at incoming freshmen and as such assumes that the reader has a limited to nonexistent background in electrical engineering and knowledge of no more than pre calculus in the field of mathematics By exposing students to these fields at an introductory level early in their

studies they will have both a better idea of what to expect in later classes and a good foundation of knowledge upon which to build

Parallel and Distributed Processing Jose Rolim, 2000-04-19 This volume contains the proceedings from the workshops held in conjunction with the IEEE International Parallel and Distributed Processing Symposium IPDPS 2000 on 15 May 2000 in Cancun Mexico The workshops provide a forum for bringing together researchers practitioners and designers from various backgrounds to discuss the state of the art in parallelism They focus on different aspects of parallelism from runtime systems to formal methods from optics to irregular problems from biology to networks of personal computers from embedded systems to programming environments the following workshops are represented in this volume Workshop on Personal Computer Based Networks of Workstations Workshop on Advances in Parallel and Distributed Computational Models Workshop on Parallel and Distributed Computing in Image Video and Multimedia Workshop on High Level Parallel Programming Models and Supportive Environment Workshop on High Performance Data Mining Workshop on Solving Irregularly Structured Problems in Parallel Workshop on Java for Parallel and Distributed Computing Workshop on Biologically Inspired Solutions to Parallel Processing Problems Workshop on Parallel and Distributed Real Time Systems Workshop on Embedded HPC Systems and Applications Reconfigurable Architectures Workshop Workshop on Formal Methods for Parallel Programming Workshop on Optics and Computer Science Workshop on Run Time Systems for Parallel Programming Workshop on Fault Tolerant Parallel and Distributed Systems All papers published in the workshops proceedings were selected by the program committee on the basis of referee reports Each paper was reviewed by independent referees who judged the papers for originality quality and consistency with the themes of the workshops

Studies in English and European Historical Dialectology Marina Dossena, Roger Lass, 2009 Originally presented at the second in the newly launched series of International Conferences on English Historical Dialectology held at the University of Bergamo in August 2007 the contributions collected in this volume discuss significant aspects of socio geo historical variation in language In addition to British English the focus is on Dutch Scots and varieties of English outside England in Wales and in the American colonies of the seventeenth century in a time span ranging from medieval times to the nineteenth century The aim is to highlight the traits that allow scholars to approach the study of English in a broader European perspective identifying the patterns that show convergence or divergence not just in terms of shared linguistic features morphosyntactic lexical or pragmatic but also in terms of methodological approaches In this respect great attention is given to the latest developments in corpus and computational linguistics showing the extent to which such new tools as electronic atlases and tagged corpora may facilitate answers to important research questions At the same time perceptual dialectology is awarded new interest on account of its significant role in normative and argumentative language use
