Adoption and impact of OER in the Global South Hodgkinson-Williams, Cheryl, Arinto, Patricia Brazil, 2018-01-05

Education in the Global South faces several key interrelated challenges for which Open Educational Resources OER are seen to be part of the solution. These challenges include unequal access to education, variable quality of educational resources, teaching and student performance, and increasing cost and concern about the sustainability of education. The Research on Open Educational Resources for Development ROER4D project seeks to build on and contribute to the body of research on how OER can help to improve access, enhance quality, and reduce the cost of education in the Global South. This volume examines aspects of educator and student adoption of OER and engagement in Open Educational Practices OEP in secondary and tertiary education, as well as teacher professional development in 21 countries in South America, Sub-Saharan Africa, and South and Southeast Asia. The ROER4D studies and syntheses presented here aim to help inform Open Education advocacy, policy, practice, and research in developing countries.

Microbial Degradation and Detoxification of Pollutants Maulin P. Shah, 2023-05-08. This book explores how bioremediation biotechnology is used to remove pollutants in wastewater. Remediation of wastewater is important to ensure that pollutants generated in industry do not affect our environment negatively. Traditional wastewater remediation is not a sustainable process; however, by using biological means, the sustainability can be improved. Both conventional methods and bioremediation technologies are discussed. Applications for heavy metal, nitrate, and petroleum bioremediation, nanotechnology in bioremediation, and more are explored.

Urban Geography in South Africa Ruth Massey, Ashley Gunter, 2019-08-17. This book embraces South Africa and its place in the Global South, providing a succinct theoretical and empirical analysis and discussion of urban issues in the country. There have been sporadic calls from the Urban Geography community for the development of an overarching and comprehensive text that explores contemporary processes and practices taking place in urban South Africa and more widely the Global South. This is an edited collection of chapters by leading urban theorists and practitioners working on various themes within urban South Africa and serves as a base for scholars and students interested in urban perspectives from countries in the Global South.

Budget Estimates for the Year Ending ... Zimbabwe, The Politics of Custom John L. Comaroff, Jean Comaroff, 2018-03-08. How are we to explain the resurgence of customary chiefs in contemporary Africa? Rather than disappearing with the tide of modernity, as many expected, indigenous sovereigns are instead a rising force, often wielding substantial power and legitimacy despite major changes in the workings of the global political economy in the post-Cold War era, changes in which they are themselves deeply implicated. This pathbreaking volume, edited by anthropologists John L. Comaroff and Jean Comaroff, explores the reasons behind the increasingly assertive politics of custom in many corners of Africa. Chiefs come in countless guises, from university professors through cosmopolitan businessmen to subsistence farmers, but whatever else they do, they are a critical key to understanding the tenacious hold that traditional authority enjoys in the
