

How to write a Life Science argumentative essay for Paper 2

Time allocation – 1 hour

PLANNING – 6 marks

- i) Key points present – identify themes in the sources – use these as mini-headings – for your supporting argument (1 mark)
- ii) Key points developed – facts under your mini-themes (three facts under each theme is enough) – for your supporting argument. Don't write too much here – state your facts briefly (1 mark)
- iii) Identify your decision **CLEARLY** (whether you agree or disagree with the essay question/statement) (1 mark)
- iv) Identify the sources each key point came from (1 mark)
- v) Under the heading "Own Information" – write your own facts (2-3 facts) (1 mark)
- vi) Have a separate heading for counter-argument and list your key points under this heading. Here you need only have 4 facts. (1 mark)

THE ESSAY – 34 marks

- i) **Introduction** – state your opinion here and write an **interesting** introduction around it. Your decision must be clear and must have no "buts". **Stick to this decision**, don't change your mind half way and don't sit on the fence.

A clear decision earns you 2 marks.

For example, if asked to state your opinion on stem cells used to grow replacement organs, you must agree/disagree with it **totally** – you cannot say for example, "I agree under certain conditions". If you do not give your decision, you will lose marks in the decision category and later on for construction of a logical argument. You will also lose marks in planning. You will also lose marks if you change your mind half way through the essay.

- ii) **Use of knowledge from sources (8 marks)**

Throughout your essay, you must use the information from the sources to motivate your decision. You do not necessarily need to use **all** of the sources, but you may need to in order to have **all** your facts. Source facts need to be integrated into the essay (never listed in point form) and need to link up with each other. Do not reference in the essay (say which source your fact is coming from – this is done in planning). Avoid directly rewriting the sources. The marker needs to see that you have understood the sources and can use them in a convincing argument. Try to use your own words as much as
